## DEPARTMENT OF PHYSICAL EDUCATION

### BOXING

The Acharya Institute of Graduate Studies (AIGS) was established in 2005 by B.Premnath Reddy, Chairman of the Acharya Group of Institutions. The college is managed by the JMJ Education Society, Headquartered in Bengaluru. Acharya's unmatched sporting infrastructure along with its highly qualified coaches and instructors has made us one of the top institutions in the area of sports in Bangalore. The sporting culture of Acharya helps develop teamwork, leadership, tolerance, and determination within our students. The purpose of Youth Sports Development is to promote sports in all over our children. It is a platform to provide the opportunity to participate the Youth to develop the skill of sport event in which he is interested and thus become competent to win prize in Organized Tournament.

At Acharya, our educational philosophy is broader than simply academics. Being one of the best colleges in Bangalore, our mission is to provide our students with a holistic life experience, by integrating carefully planned facilities and activities into the daily campus routine, we ensure our students become responsible human beings and prepare them to face the challenges of life. Organized, well-structured youth sports and on-going physical activities can provide many benefits for children and adolescents. Positive experiences that sport and an active lifestyle bring play an important role in a young person's life.

Acharya Institutes, committed to the cause of value-based education in all disciplines, envisions itself as fountainhead of innovative human enterprise, with inspiration initiatives for academic excellence. AIGS is endowed with modern physical, technological, and academic infrastructure and provides world class learning ambience to its students. The word "Acharya" in Sanskrit signifies "a powerful guru." exemplifies our institution's core principles, which place a high priority on treating professors with respect.

Boxing (also known as "Western boxing" or "pugilism") is a combat sport in which two people, usually wearing protective gloves and other protective equipment such as hand wraps and mouthguards, throw punches at each other for a predetermined amount of time in a boxing ring.

**PRINCIPAL**

Acharya Institute of Graduate Studies  
Soldevanahalli, Meseraghatta Road  
Bengaluru - 560107

Although the term "boxing" is commonly attributed to "western boxing", in which only the fists are involved, boxing has developed in various ways in different geographical areas and cultures. In global terms, boxing is a set of combat sports focused on striking, in which two opponents face each other in a fight using at least their fists, and possibly involving other actions such as kicks, elbow strikes, knee strikes, and headbutts, depending on the rules. Some of the forms of the modern sport are western boxing, bare knuckle boxing, kickboxing, muay-thai, lethwei, savate, and sanda. Boxing techniques have been incorporated into many martial arts, military systems, and other combat sports.

Though humans have fought in hand-to-hand combat since the dawn of human history and the origin of the sport of boxing is unknown, according to some sources boxing has prehistoric origins in present-day Ethiopia where it appeared in the sixth millennium BC and when the Egyptians invaded Nubia they learned the art of boxing from the local population and they took the sport to Egypt where it became popular and from Egypt boxing spread to other countries including Greece, and eastward to Mesopotamia and northward to Rome.

The earliest visual evidence of any type of boxing is from Egypt and Sumer both from the third millennia and can be seen in Sumerian carvings from the third and second millennia BC. The earliest evidence of boxing rules date back to Ancient Greece, where boxing was established as an Olympic game in 688 BC. Boxing evolved from 16th- and 18th-century prizefights, largely in Great Britain, to the forerunner of modern boxing in the mid-19th century with the 1867 introduction of the Marquess of Queensberry Rules.

Amateur boxing is both an Olympic and Commonwealth Games sport and is a standard fixture in most international games—it also has its own world championships. Boxing is overseen by a referee over a series of one-to-three-minute intervals called "rounds".

A winner can be resolved before the completion of the rounds when a referee deems an opponent incapable of continuing, disqualifies an opponent, or the opponent resigns. When the fight reaches the end of its final round with both opponents still standing, the judges' scorecards determine the victor. In case both fighters gain equal scores from the judges, a professional bout is considered a draw. In Olympic boxing, because a winner must be declared, judges award the contest to one fighter on technical criteria.

For this competition student participation was energetic and enthusiastic. So, the competition went on successfully. From Acharya Institute of Graduate Studies our student Mr. R B NIRMAL RAJ had participated in the "State level competition" on 19-05-2018-20-05-

The word "Acharya" in Sanskrit signifies "a powerful guru." exemplifies our institution's core principles, which place a high priority on treating professors with respect.

**Baseball** is a bat-and-ball sport played between two teams of nine players each, taking turns batting and fielding. The game is live when the umpire signals to the pitcher either verbally or by pointing, indicating that the ball is now in play. A player on

  
PRINCIPAL

Acharya Institute of Graduate Studies  
Soladevanahalli, Hesaraghatta Road  
Bengaluru - 560107

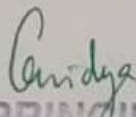

the fielding team, called the pitcher, throws a ball that a player on the batting team tries to hit with a bat. The objective of the offensive team (batting team) is to hit the ball into the field of play, away from the other team's players, allowing its players to run the bases, having them advance counter-clockwise around four bases to score what are called "runs". The objective of the defensive team (referred to as the fielding team) is to prevent batters from becoming runners, and to prevent runners' advance around the bases. A run is scored when a runner legally advances around the bases in order and touches home plate (the place where the player started as a batter).

Baseball evolved from older bat-and-ball games already being played in England by the mid-18th century. This game was brought by immigrants to North America, where the modern version developed. Baseball's American origins, as well as its reputation as a source of escapism during troubled points in American history such as the American Civil War and the Great Depression, have led the sport to receive the moniker of "America's Pastime"; since the late 19th century, it has been unofficially recognized as the national sport of the United States, though in modern times is considered less popular than other sports, such as American football. In addition to North America, baseball is considered the most popular sport in parts of Central and South America, the Caribbean, and East Asia, particularly in Japan, South Korea, and Taiwan.

Sports require memorization, repetition, and learning — skillsets that are directly relevant to class work. Also, the determination and goal-setting skills a sport requires can be transferred to the classroom. Achieving a sport or fitness goal encourages you to achieve other goals you set. This is a rewarding and exciting learning process.

We are Overjoyed to inform that 1 of the student had participated in the "University Level Competition" on 11-05-18 to 13-05-18 organised by "11<sup>th</sup> Baseball Federation Cup Chandigarh".

The management, principal, teaching and non-teaching faculties of AIGS congratulates the participants, Physical education director Mr. Mahesh P M.

**Softball** is a game similar to baseball played with a larger ball on a smaller field. Softball is played competitively at club levels, the college level, and the professional level. The game was first created in 1887 in Chicago by George Hancock.

There are two rule sets for softball generally: *slow-pitch softball* and *fastpitch*. Slow pitch softball is commonly played recreationally, while women's fastpitch softball is a Summer Olympic sport and is played professionally.

Depending on the variety being played and the age and gender of the players, the particulars of field and equipment vary. While distances between bases of 60 feet are standard across varieties, the pitcher's plate ranges from 35 to 43 feet away from the home plate, and the home run fence can be 220 to 300 feet away from the home plate. The ball itself is typically 11 or 12 inches (28 or 30 cm) in circumference, also depending on the specifics of the competition.

Softball rules vary somewhat from those of baseball. The game moves at a faster pace than traditional baseball due to the field being smaller and the bases and the fielders being closer to home plate. Softball is pitched underhand from flat ground, with fast pitch using a windmill arm motion, while baseball is pitched overhand from a small hill called a mound, which changes the flight of the pitch. Additionally, the entire infield of a softball diamond is dirt, without grass around the pitcher's plate.

Sports require memorization, repetition, and learning — skillsets that are directly relevant to class work. Also, the determination and goal-setting skills a sport requires can be transferred to the classroom. Achieving a sport or fitness goal encourages you to achieve other goals you set. This is a rewarding and exciting learning process.

We are happy to inform that 12 of the student Hosted the "University Level Competition for Women" from 10-04-18 to 11-04-18 organised by Bangalore University Acharya Institute of Graduate Studies.

The management, principal, teaching and non-teaching faculty of AIGS congratulate the participants, Physical education director Mr. Mahesh P M.

The sporting culture of Acharya helps develop teamwork, leadership, tolerance, and determination within our students. The purpose of Youth Sports Development is to promote sports in all over our children. It is a platform to provide the opportunity to participate the Youth to develop the skill of sports events in which he is interested and thus become competent to win prizes in an Organized Tournament.

At Acharya, our educational philosophy is broader than simply academics. Being one of the best colleges in Bangalore, our mission is to provide our students with a holistic life experience, by integrating carefully planned facilities and activities into the daily campus routine, we ensure our students become responsible human beings and prepare them to face the challenges of life. Organized, well-structured youth sports and ongoing physical activities can provide many benefits for children and adolescents. Positive experiences that sports and an active lifestyle bring play an important role in a young person's life.

Acharya Institutes, committed to the cause of value-based education in all disciplines, envisions itself as the fountainhead of innovative human enterprise, with inspiration initiatives for academic excellence. AIGS is endowed with modern physical, technological, and academic infrastructure and provides world-class learning ambience to its students. The word "Acharya" in Sanskrit signifies "a powerful guru." exemplifies our institution's core principles, which place a high priority on treating professors with respect.

**Softball** is a game similar to baseball played with a larger ball on a smaller field. Softball is played competitively at club levels, the college level, and the professional level. The game was first created in 1887 in Chicago by George Hancock.

There are two rule sets for softball generally: *slow pitch softball* and *fastpitch*. Slow pitch softball is commonly played recreationally, while women's fastpitch softball is a Summer Olympic sport and is played professionally.

Depending on the variety being played and the age and gender of the players, the particulars of field and equipment vary. While distances between bases of 60 feet are standard across varieties, the pitcher's plate ranges from 35 to 43 feet away from home plate, and the home run fence can be 220 to 300 feet away from home plate. The ball itself is typically 11 or 12 inches (28 or 30 cm) in circumference, also depending on specifics of the competition.

Softball rules vary somewhat from those of baseball. The game moves at a faster pace than traditional baseball due to the field being smaller and the bases and the fielders being closer to home plate. Softball is pitched underhand from flat ground, with fastpitch using a windmill arm motion, while baseball is pitched overhand from a small hill called a mound, which changes the flight of the pitch. Additionally, the entire infield of a softball diamond is dirt, without grass around the pitcher's plate.

Sports require memorization, repetition, and learning — skillsets that are directly relevant to class work. Also, the determination and goal-setting skills a sport requires can be transferred to the classroom. Achieving a sport or fitness goal encourages you to achieve other goals you set. This is a rewarding and exciting learning process.

From Acharya Institute of Graduate Studies happy to inform that 10 of the students participated in the "University Level Competition for Women" from 06-04-18 to 08-04-18 organised by the Caspians Cup Soft Ball Tournament.

The management, principal, teaching and non-teaching faculty of AIGS congratulate the participants, Physical education director Mr. Mahesh P M.

**DEPARTMENT OF PHYSICAL EDUCATION**

**Football(Men) BU North Zone**

The Acharya Institute of Graduate Studies (AIGS) was established in 2005 by B. Premnath Reddy, Chairman of the Acharya Group of Institutions. The college is managed by the JMJ Education Society, Headquartered in Bengaluru. Acharya's unmatched sporting infrastructure along with its highly qualified coaches and instructors has made us one of the top institutions in the area of sports in Bangalore. The sporting culture of Acharya helps develop teamwork, leadership, tolerance, and determination within our students. The purpose of Youth Sports Development is to promote sports all over our children. It is a platform to provide the opportunity to participate in the Youth to develop the skill of sports events in which he is interested and thus become competent to win prizes in an Organized Tournament.

At Acharya, our educational philosophy is broader than simply academics. Being one of the best colleges in Bangalore, our mission is to provide our students with a holistic life experience, by integrating carefully planned facilities and activities into the daily campus routine, we ensure our students become responsible human beings and prepare them to face the challenges of life. Organized, well-structured youth sports and ongoing physical activities can provide many benefits for children and adolescents. Positive experiences that sports and an active lifestyle bring play an important role in a young person's life.

Acharya Institutes, committed to the cause of value-based education in all disciplines, envisions itself as the fountainhead of innovative human enterprise, with inspiration initiatives for academic excellence. AIGS is endowed with modern physical, technological, and academic infrastructure and provides world-class learning ambience to its students. The word "Acharya" in Sanskrit signifies "a powerful guru." exemplifies our institution's core principles, which place a high priority on treating professors with respect.

**Football** is a family of team sports that involve, to varying degrees, kicking a ball to score a goal. Unqualified, the word *football* normally means the form of football that is the most popular where the word is used. Sports commonly called *football* include association football (known as *soccer* in North America and Australia); gridiron

Soldevanahalli, Hezaraghatta Road  
Bengaluru - 560107

football (specifically American football or Canadian football); Australian rules football; rugby union and rugby league; and Gaelic football. These various forms of football share to varying extents common origins and are known as "football codes".

There are a number of references to traditional, ancient, or prehistoric ball games played in many different parts of the world. Contemporary codes of football can be traced back to the codification of these games at English public schools during the 19th century. The expansion and cultural influence of the British Empire allowed these rules of football to spread to areas of British influence outside the directly controlled Empire. By the end of the 19th century, distinct regional codes were already developing: Gaelic football, for example, deliberately incorporated the rules of local traditional football games in order to maintain their heritage. In 1888, The Football League was founded in England, becoming the first of many professional football associations. During the 20th century, several of various kinds of football grew to become some of the most popular team sports in the world.

Sports require memorization, repetition, and learning — skillsets that are directly relevant to class work. Also, the determination and goal-setting skills a sport requires can be transferred to the classroom. Achieving a sport or fitness goal encourages you to achieve other goals you set. This is a rewarding and exciting learning process.

We are delighted to inform that 1 student had participated and won in the "University Level Competition" from 13-03-18 to 14-03-18 organised by Bangalore University RBANMS, FGC.

The management, principal, teaching and non-teaching faculty of AIGS congratulates the participants, Physical education director Mr. Mahesh P M.

**RUGBY(MEN)**

The Acharya Institute of Graduate Studies (AIGS) was established in 2005 by B.Premnath Reddy, Chairman of the Acharya Group of Institutions. The college is managed by the JMJ Education Society, Headquartered in Bengaluru. Acharya's unmatched sporting infrastructure along with its highly qualified coaches and instructors has made us one of the top institutions in the area of sports in Bangalore. The sporting culture of Acharya helps develop teamwork, leadership, tolerance, and determination within our students. The purpose of Youth Sports Development is to promote sports in all over our children. It is a platform to provide the opportunity to participate the Youth to develop the skill of sport event in which he is interested and thus become competent to win prize in Organized Tournament.

At Acharya, our educational philosophy is broader than simply academics. Being one of the best colleges in Bangalore, our mission is to provide our students with a holistic life experience, by integrating carefully planned facilities and activities into the daily campus routine, we ensure our students become responsible human beings and prepare them to face the challenges of life. Organized, well-structured youth sports and on-going physical activities can provide many benefits for children and adolescents. Positive experiences that sport and an active lifestyle bring play an important role in a young person's life.

Acharya Institutes, committed to the cause of value-based education in all disciplines, envisions itself as fountainhead of innovative human enterprise, with inspiration initiatives for academic excellence. AIGS is endowed with modern physical, technological, and academic infrastructure and provides world class learning ambience to its students. The word "Acharya" in Sanskrit signifies "a powerful guru." exemplifies our institution's core principles, which place a high priority on treating professors with respect.

**rugby**, football game played with an oval ball by two teams of 15 players (in rugby union play) or 13 players (in rugby league play). Both rugby union and rugby league have their origins in the style of football played at Rugby School in England. According to the sport's lore, in 1823 William Webb Ellis, a pupil at Rugby School, defied the conventions of the day (that the ball may only be kicked forward) to pick up the ball and run with it in a game, thus **creating**

*Principal*  
**PRINCIPAL**  
Acharya Institute of Graduate Studies  
Soldevanahalli, Bengaluru  
Bengaluru -560107

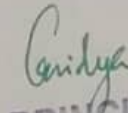

the distinct handling game of rugby football. This "historical" basis of the game was well established by the early 1900s, about the same time that foundation myths were invented for baseball and Australian rules football. While it is known that Webb Ellis was a student at Rugby School at the time, there is no direct evidence of the actual event's having taken place, though it was cited by the Old Rugbeian Society in an 1897 report on the origins of the game.

Rugby is now a popular sport in many countries of the world, with clubs and national teams found in places as diverse as Japan, Georgia, Uruguay, and Spain. Rugby rapidly spread from its elitist origins in England, Scotland, and Ireland to middle- and working-class men in the north of England and in Wales and to the British colonies in South Africa, Australia, and New Zealand. It also spread to North America, where it was transformed into a new style of football.

From Acharya Institute of Graduate Studies students, Mr. UDAY KUMAR, Mr. GAJAN P K, Mr. SUDANSHU KUMAR, Mr. MOHAMMAD SADIQUE, Mr. DARSHAN P, Mr. ANISH R, Mr. SANGAMESH A, Mr. STANLEY J, Mr. MANOJ M, Mr. GAGAN T K, Mr. ISSAC JERRY, Mr. PRAJWAL N, had participated in the "university level competition" at university on 12-03-2018, organized by Acharya Institute of Graduate Studies

The management, principal, teaching and non-teaching faculties of AIGS congratulates the participants, Physical education director Mr. Mahesh P M.

## DEPARTMENT OF PHYSICAL EDUCATION

### Power lifting Competition

The Acharya Institute of Graduate Studies (AIGS) was established in 2005 by B.Premnath Reddy, Chairman of the Acharya Group of Institutions. The college is managed by the JMJ Education Society, Headquartered in Bengaluru. Acharya's unmatched sporting infrastructure along with its highly qualified coaches and instructors has made us one of the top institutions in the area of sports in Bangalore. The sporting culture of Acharya helps develop teamwork, leadership, tolerance, and determination within our students. The purpose of Youth Sports Development is to promote sports all over our children. It is a platform to provide the opportunity to participate in the Youth to develop the skill of sports events in which he is interested and thus become competent to win prizes in Organized Tournament.

At Acharya, our educational philosophy is broader than simply academics. Being one of the best colleges in Bangalore, our mission is to provide our students with a holistic life experience, by integrating carefully planned facilities and activities into the daily campus routine, we ensure our students become responsible human beings and prepare them to face the challenges of life. Organized, well-structured youth sports and ongoing physical activities can provide many benefits for children and adolescents. Positive experiences that sport and an active lifestyle bring play an important role in a young person's life.

Acharya Institutes, committed to the cause of value-based education in all disciplines, envisions itself as the fountainhead of innovative human enterprise, with inspiration initiatives for academic excellence. AIGS is endowed with modern physical, technological, and academic infrastructure and provides a world-class learning ambience to its students. The word "Acharya" in Sanskrit signifies "a powerful guru." exemplifies our institution's core principles, which place a high priority on treating professors with respect.

**Powerlifting** is a strength sport that consists of three attempts at maximal weight on three lifts: squat, bench press, and deadlift. The sport of Olympic weightlifting, it involves the athlete attempting a maximal weight single-lift effort of a barbell loaded with weight plates. Powerlifting evolved from a sport known as "odd lifts", which followed the same three-

  
PRINCIPAL

Acharya Institute of Graduate Studies  
Soladevanahalli, Hesaraghatta Road  
Bengaluru - 560107

attempt format but used a wider variety of events, akin to strongman competition. Eventually, odd lifts became standardized to the current three.

In competition, lifts may be performed **equipped** or **un-equipped** (typically referred to as 'classic' or 'raw' lifting in the IPF specifically). Equipment in this context refers to a supportive bench shirt or squat/deadlift suit or briefs. In some federations, knee wraps are permitted in the equipped but not un-equipped division; in others, they may be used in both equipped and un-equipped lifting. Weight belts, knee sleeves, wrist wraps, and special footwear may also be used, but are not considered when distinguishing equipped from un-equipped lifting

Sports require memorization, repetition, and learning — skillsets that are directly relevant to class work. Also, the determination and goal-setting skills a sport requires can be transferred to the classroom. Achieving a sport or fitness goal encourages you to achieve other goals you set. This is a rewarding and exciting learning process.

We are delighted to inform that our 1 student Mr. Shyraj Muhammed participated and awarded bronze medal in the "University Level Competition" on 28-02-2018 organised by Bangalore University GFGC K R Puram.

The management, principal, teaching and non-teaching faculty of AIGS congratulates the participants, Physical education director Mr. Mahesh P M.

**Softball** is a game similar to baseball played with a larger ball on a smaller field. Softball is played competitively at club levels, the college level, and the professional level. The game was first created in 1887 in Chicago by George Hancock.

*Arindya*  
**PRINCIPAL**

Acharya Institute of Graduate Studies  
Soladevanahalli, Heeraghatta Road  
Bengaluru - 560107

There are two rule sets for softball generally: *slow pitch softball* and *fastpitch*. Slow pitch softball is commonly played recreationally, while women's fastpitch softball is a Summer Olympic sport and is played professionally.

Depending on the variety being played and the age and gender of the players, the particulars of field and equipment vary. While distances between bases of 60 feet are standard across varieties, the pitcher's plate ranges from 35 to 43 feet away from home plate, and the home run fence can be 220 to 300 feet away from home plate.<sup>[1]</sup> The ball itself is typically 11 or 12 inches (28 or 30 cm) in circumference, also depending on specifics of the competition.

Softball rules vary somewhat from those of baseball. The game moves at a faster pace than traditional baseball due to the field being smaller and the bases and the fielders being closer to home plate. Softball is pitched underhand from flat ground, with fastpitch using a windmill arm motion, while baseball is pitched overhand from a small hill called a mound, which changes the flight of the pitch. Additionally, the entire infield of a softball diamond is dirt, without grass around the pitcher's plate.

Sports require memorization, repetition, and learning — skillsets that are directly relevant to class work. Also, the determination and goal-setting skills a sport requires can be transferred to the classroom. Achieving a sport or fitness goal encourages you to achieve other goals you set. This is a rewarding and exciting learning process.

We are happy to inform you that our 5 students had participated in the "University Level Competition " on 22-02-18 to 03-03-18 organised by All India inter university MDU Rothak, Haryana.

The management, principal, teaching and non-teaching faculty of AIGS congratulates the participants, Physical education director Mr. Mahesh P M.

**American football** (referred to simply as **football** in the United States and Canada), also known as **gridiron**, is a team sport played by two teams of eleven players on a rectangular field with goalposts at each end. The offense, the team with possession of the oval-shaped football, attempts to advance *down* the field by running with the ball

**PRINCIPAL**

Acharya Institute of Graduate Studies  
Soldevanahalli, Hesaraghatta Road  
Beng - 560107

or passing it, while the defense, the team without possession of the ball, aims to stop the offense's advance and to take control of the ball for themselves. The offense must advance at least ten yards in four downs or plays; if they fail, they turn over the football to the defense, but if they succeed, they are given a new set of four downs to continue the drive. Points are scored primarily by advancing the ball into the opposing team's end zone for a touchdown or kicking the ball through the opponent's goalposts for a field goal. The team with the most points at the end of a game wins.

American football evolved in the United States, originating from the sports of soccer and rugby. The first American football match was played on November 6, 1869, between two college teams, Rutgers and Princeton, using rules based on the rules of soccer at the time. A set of rule changes drawn up from 1880 onward by Walter Camp, the "Father of American Football", established the snap, the line of scrimmage, eleven-player teams, and the concept of downs. Later rule changes legalized the forward pass, created the neutral zone and specified the size and shape of the football. The sport is closely related to Canadian football, which evolved in parallel with and at the same time as the American game, although its rules were developed independently from those of Camp. Most of the features that distinguish American football from rugby and soccer are also present in Canadian football. The two sports are considered the primary variants of gridiron football.

American football is the most popular sport in the United States in terms of broadcast viewership audience. The most popular forms of the game are professional and college football, with the other major levels being high-school and youth football. As of 2012, nearly 1.1 million high-school athletes and 70,000 college athletes play the sport in the United States annually. The National Football League, the most popular American professional football league, has the highest average attendance of any professional sports league in the world. Its championship game, the Super Bowl, ranks among the most-watched club sporting events in the world. The league has an annual revenue of around US\$15 billion, making it the most valuable sports league in the world. Other professional leagues exist worldwide, but the sport does not have the international popularity of other American sports like baseball or basketball.

Sports require memorization, repetition, and learning — skillsets that are directly relevant to class work. Also, the determination and goal-setting skills a sport requires can be transferred to the classroom. Achieving a sport or fitness goal encourages you to achieve other goals you set. This is a rewarding and exciting learning process.

### About Acharya

Acharya Institutes is an educational organization consisting of 11 institutes that offer specializations in various fields and foster interdisciplinary courses. Acharya Institutes is a sprawling 120 acre campus, with Bengaluru's largest Wi-Fi enabled composite academic facility. Acharya Institutes has 15 research centers, 50 academic streams with over 100 programs. 15000 students from 75 nationalities are presently pursuing their education at Acharya Institutes.

### About AIGS

Acharya Institute of Graduate Studies (AIGS) was founded in 2005, and is counted among the top graduate colleges in Bengaluru. The Institute offers Undergraduate and Postgraduate courses in a variety of subjects that include Language, Social Work, Social Sciences, Sciences, Commerce, Management, Marketing, Accounting, Fashion and Apparel Design, etc. AIGS is endowed with modern physical, technological and academic infrastructure and provides a world-class learning ambience to its students. AIGS is committed to mentoring its students beyond the prescribed curriculum aspects.

### About the Department

Acharya Institute of Graduate Studies understands physical education department has a well built sports infrastructure. With highly qualified coaches and instructors, with facilities including a 10,000 seater, Olympic Sized Stadium, Indoor Sporting Facility, Basketball, Volleyball, Badminton Courts enabling sports including Archery, Gymnasium, Horse Riding, Cricket, Football, American Football, Softball, Rugby, Baseball, Table Tennis, Track and Field sports forms the perfect setting to nurture the dedicated into the best sports-persons on campus.

### About the Event

American Football is a team sport played by two teams of eleven players on a rectangular field with goalposts at each end.

**ACHARYA INSTITUTE OF GRADUATE STUDIES**  
(NAAC Re-Accredited 'A' and Affiliated to Bangalore University)  
Soldevanahalli, Bengaluru-560107

**DEPARTMENT OF PHYSICAL EDUCATION**

**American Football (Flag Football)**

The Acharya Institute of Graduate Studies (AIGS) was established in 2005 by B.Premnath Reddy, Chairman of the Acharya Group of Institutions. The college is managed by the JMJ Education Society, Headquartered in Bengaluru. Acharya's unmatched sporting infrastructure along with its highly qualified coaches and instructors has made us one of the top institutions in the area of sports in Bangalore. The sporting culture of Acharya helps develop teamwork, leadership, tolerance, and determination within our students. The purpose of Youth Sports Development is to promote sports in all over our children. It is a platform to provide the opportunity to participate the Youth to develop the skill of sport event in which he is interested and thus become competent to win prize in Organized Tournament.

At Acharya, our educational philosophy is broader than simply academics. Being one of the best colleges in Bangalore, our mission is to provide our students with a holistic life experience, by integrating carefully planned facilities and activities into the daily campus routine, we ensure our students become responsible human beings and prepare them to face the challenges of life. Organized, well-structured youth sports and on-going physical activities can provide many benefits for children and adolescents. Positive experiences that sport and an active lifestyle bring play an important role in a young person's life.

Acharya Institutes, committed to the cause of value-based education in all disciplines, envisions itself as fountainhead of innovative human enterprise, with inspiration initiatives for academic excellence. AIGS is endowed with modern physical, technological, and academic infrastructure and provides world class learning ambience to its students. The word "Acharya" in Sanskrit signifies "a powerful guru." exemplifies our institution's core principles, which place a high priority on treating professors with respect.

**American football** (referred to simply as **football** in the United States and Canada), also known as **gridiron**, is a team sport played by two teams of eleven players on a rectangular field with goalposts at each end. The offense, the team with possession of the oval-shaped football, attempts to advance *down* the field by running with the ball

**PRINCIPAL**

Acharya Institute of Graduate Studies  
Soldevanahalli, Hesuraghatta Road  
Beng - 560107

or passing it, while the defense, the team without possession of the ball, aims to stop the offense's advance and to take control of the ball for themselves. The offense must advance at least ten yards in four downs or plays; if they fail, they turn over the football to the defense, but if they succeed, they are given a new set of four downs to continue the drive. Points are scored primarily by advancing the ball into the opposing team's end zone for a touchdown or kicking the ball through the opponent's goalposts for a field goal. The team with the most points at the end of a game wins.

American football evolved in the United States, originating from the sports of soccer and rugby. The first American football match was played on November 6, 1869, between two college teams, Rutgers and Princeton, using rules based on the rules of soccer at the time. A set of rule changes drawn up from 1880 onward by Walter Camp, the "Father of American Football", established the snap, the line of scrimmage, eleven-player teams, and the concept of downs. Later rule changes legalized the forward pass, created the neutral zone and specified the size and shape of the football. The sport is closely related to Canadian football, which evolved in parallel with and at the same time as the American game, although its rules were developed independently from those of Camp. Most of the features that distinguish American football from rugby and soccer are also present in Canadian football. The two sports are considered the primary variants of gridiron football.

American football is the most popular sport in the United States in terms of broadcast viewership audience. The most popular forms of the game are professional and college football, with the other major levels being high-school and youth football. As of 2012, nearly 1.1 million high-school athletes and 70,000 college athletes play the sport in the United States annually. The National Football League, the most popular American professional football league, has the highest average attendance of any professional sports league in the world. Its championship game, the Super Bowl, ranks among the most-watched club sporting events in the world. The league has an annual revenue of around US\$15 billion, making it the most valuable sports league in the world. Other professional leagues exist worldwide, but the sport does not have the international popularity of other American sports like baseball or basketball.

Sports require memorization, repetition, and learning — skillsets that are directly relevant to class work. Also, the determination and goal-setting skills a sport requires can be transferred to the classroom. Achieving a sport or fitness goal encourages you to achieve other goals you set. **Baseball** is a bat-and-ball sport played between two teams of nine players each, taking turns batting and fielding. The game is live when the umpire signals to the pitcher either verbally or by pointing, indicating that the ball is now in play. A player on the fielding team, called the pitcher, throws a ball that a player on the batting team tries to hit

*[Signature]*  
PRINCIPAL

Acharya Institute of Graduate Studies  
Soladevanahalli, Hebsaraghatta Road  
Bengaluru - 560107

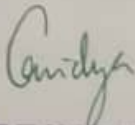

with a bat. The objective of the offensive team (batting team) is to hit the ball into the field of play, away from the other team's players, allowing its players to run the bases, having them advance counter-clockwise around four bases to score what are called "runs". The objective of the defensive team (referred to as the fielding team) is to prevent batters from becoming runners, and to prevent runners' advance around the bases. A run is scored when a runner legally advances around the bases in order and touches home plate (the place where the player started as a batter).

Baseball evolved from older bat-and-ball games already being played in England by the mid-18th century. This game was brought by immigrants to North America, where the modern version developed. Baseball's American origins, as well as its reputation as a source of escapism during troubled points in American history such as the American Civil War and the Great Depression, have led the sport to receive the moniker of "America's Pastime"; since the late 19th century, it has been unofficially recognized as the national sport of the United States, though in modern times is considered less popular than other sports, such as American football. In addition to North America, baseball is considered the most popular sport in parts of Central and South America, the Caribbean, and East Asia, particularly in Japan, South Korea, and Taiwan.

Sports require memorization, repetition, and learning — skillsets that are directly relevant to class work. Also, the determination and goal-setting skills a sport requires can be transferred to the classroom. Achieving a sport or fitness goal encourages you to achieve other goals you set. This is a rewarding and exciting learning process.

We are delighted to inform that our 10 students had participated in the "Intercollegiate Level Competition" on 27-01-18 organised by Jain University VIE Tournament.

The management, principal, teaching and non-teaching faculty of AIGS congratulates the participants, Physical education director Mr. Mahesh P M.

## DEPARTMENT OF PHYSICAL EDUCATION

### SOFTBALL(MEN&WOMEN)

The Acharya Institute of Graduate Studies (AIGS) was established in 2005 by B.Premnath Reddy, Chairman of the Acharya Group of Institutions. The college is managed by the JMJ Education Society, Headquartered in Bengaluru. Acharya's unmatched sporting infrastructure along with its highly qualified coaches and instructors has made us one of the top institutions in the area of sports in Bangalore. The sporting culture of Acharya helps develop teamwork, leadership, tolerance, and determination within our students. The purpose of Youth Sports Development is to promote sports in all over our children. It is a platform to provide the opportunity to participate the Youth to develop the skill of sport event in which he is interested and thus become competent to win prize in Organized Tournament.

At Acharya, our educational philosophy is broader than simply academics. Being one of the best colleges in Bangalore, our mission is to provide our students with a holistic life experience, by integrating carefully planned facilities and activities into the daily campus routine, we ensure our students become responsible human beings and prepare them to face the challenges of life. Organized, well-structured youth sports and on-going physical activities can provide many benefits for children and adolescents. Positive experiences that sport and an active lifestyle bring play an important role in a young person's life.

Acharya Institutes, committed to the cause of value-based education in all disciplines, envisions itself as fountainhead of innovative human enterprise, with inspiration initiatives for academic excellence. AIGS is endowed with modern physical, technological, and academic infrastructure and provides world class learning ambience to its students. The word "Acharya" in Sanskrit signifies "a powerful guru." exemplifies our institution's core principles, which place a high priority on treating professors with respect.

Softball is a variation of the sport baseball. It's more commonly played at a recreational level and played on a pitch smaller than that of baseball. Whilst the rules are very similar there are some that differ. The sport is widely played throughout North America but there are also professional leagues played in Asia, Europe and South America. The object of softball is to hit

Bengaluru - 560107

the ball with a bat before the player tries to run around an infield with four bases. Once a player manages to get right round without being given out a run is scored. The team with the most runs at the end of the game is deemed the winner. Each softball team has 9 players. The game takes place over 7 innings and within each innings the team will bat then field. An innings is split into two sections called the top and the bottom of the innings. The away team bats first at the top of the innings whilst the home team field, then teams switch so the home team bats at the bottom of the innings.

Pitch sizes vary in softball and are often just whatever size can be found or used at the time. The in- filed has four bases in a diamond shape. The bases are home base (where the batter stands), first base, second base and third base. Home plate can be found in the centre of the field where the pitcher must stand to throw the ball. The pitcher must throw the ball underarm and must have at least one foot on the plate at the point of delivery.

Once a batting order is set at the start of the game it cannot be changed throughout. A batsman can be given out by being caught by a fielder without the ball bouncing, missing the ball three times in which a strike is called or by being tagged by a fielder holding the ball whilst running between bases. A batsman can be walked to first base if the pitcher fails to get the ball within the strike zone 4 times without a stroke being made. The strike zone in softball is larger than that of baseball.

Teams can be mixed with men and women or with just a single sex on each team. Once a team have completed their innings then the teams switch to do the opposite role. An innings is complete when the fielding team manage to get three players out from the bating team.

For this competition student participation was energetic and enthusiastic. So, the competition went on successfully. From Acharya Institute of Graduate Studies our student SANGAMESH ARAKERI, SUNIL SS, PAVAN KUMAR, MANOJ M, HARENDRA D, GAGAN T K, RAMYA N, SHEETAL SINGH V, SHIJINA K C, BHOOMIKA G M, RACHANA R, VARSHA A, ARPITHA K Shad participated in the "National level competition" on 25-12-2017-30-12-2017 at DUTTAPULIA, NADIA, WEST BENGAL organized by AIU, west bengal

The management, principal, teaching and non-teaching faculties of AIGS congratulates the participants, Physical education director Mr. Mahesh P M.

### DEPARTMENT OF PHYSICAL EDUCATION

#### Softball (Men) Nationals(DuttaPulia)

The Acharya Institute of Graduate Studies (AIGS) was established in 2005 by B.Premnath Reddy, Chairman of the Acharya Group of Institutions. The college is managed by the JMJ Education Society, Headquartered in Bengaluru. Acharya's unmatched sporting infrastructure along with its highly qualified coaches and instructors has made us one of the top institutions in the area of sports in Bangalore. The sporting culture of Acharya helps develop teamwork, leadership, tolerance, and determination within our students. The purpose of Youth Sports Development is to promote sports in all over our children. It is a platform to provide the opportunity to participate the Youth to develop the skill of sport event in which he is interested and thus become competent to win prize in Organized Tournament.

At Acharya, our educational philosophy is broader than simply academics. Being one of the best colleges in Bangalore, our mission is to provide our students with a holistic life experience, by integrating carefully planned facilities and activities into the daily campus routine, we ensure our students become responsible human beings and prepare them to face the challenges of life. Organized, well-structured youth sports and on-going physical activities can provide many benefits for children and adolescents. Positive experiences that sport and an active lifestyle bring play an important role in a young person's life.

Acharya Institutes, committed to the cause of value-based education in all disciplines, envisions itself as fountainhead of innovative human enterprise, with inspiration initiatives for academic excellence. AIGS is endowed with modern physical, technological, and academic infrastructure and provides world class learning ambience to its students. The word "Acharya" in Sanskrit signifies "a powerful guru." exemplifies our institution's core principles, which place a high priority on treating professors with respect.

**Softball** is a game similar to baseball played with a larger ball on a smaller field. Softball is played competitively at club levels, the college level, and the professional level. The game was first created in 1887 in Chicago by George Hancock.

There are two rule sets for softball generally: *slow pitch softball* and *fastpitch*. Slow pitch softball is commonly played recreationally, while women's fastpitch softball is a Summer Olympic sport and is played professionally.

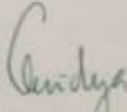

Depending on the variety being played and the age and gender of the players, the particulars of field and equipment vary. While distances between bases of 60 feet are standard across varieties, the pitcher's plate ranges from 35 to 43 feet away from home plate, and the home run fence can be 220 to 300 feet away from home plate.<sup>[1]</sup> The ball itself is typically 11 or 12 inches (28 or 30 cm) in circumference, also depending on specifics of the competition.

Softball rules vary somewhat from those of baseball. The game moves at a faster pace than traditional baseball due to the field being smaller and the bases and the fielders being closer to home plate. Softball is pitched underhand from flat ground, with fastpitch using a windmill arm motion, while baseball is pitched overhand from a small hill called a mound, which changes the flight of the pitch. Additionally, the entire infield of a softball diamond is dirt, without grass around the pitcher's plate.

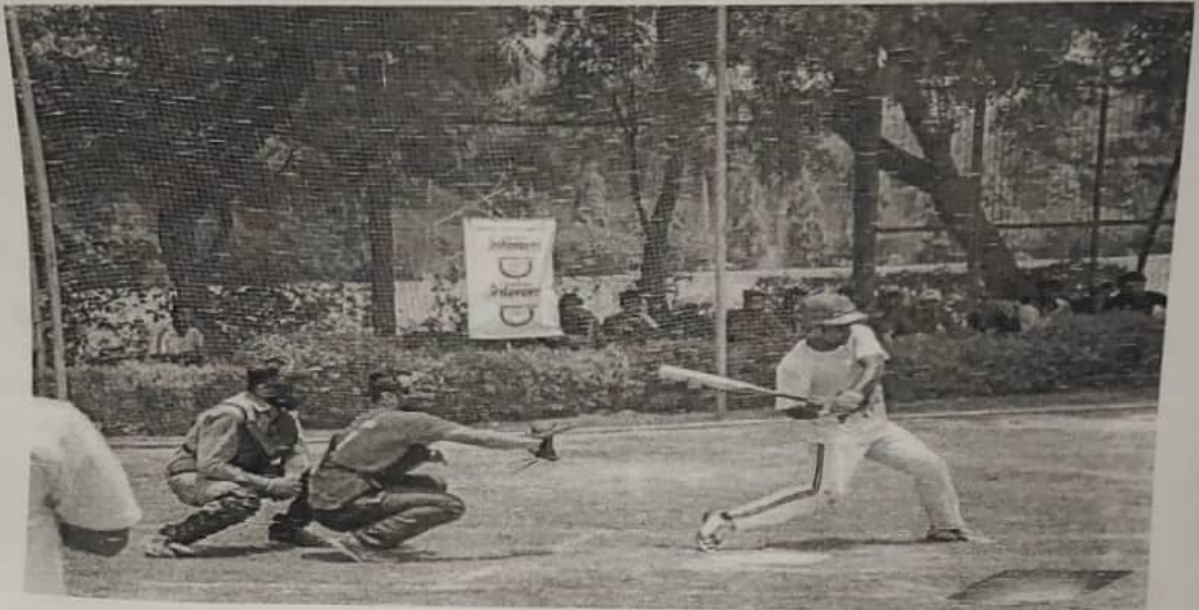

Sports require memorization, repetition, and learning — skillsets that are directly relevant to class work. Also, the determination and goal-setting skills a sport requires can be transferred to the classroom. Achieving a sport or fitness goal encourages you to achieve other goals you set. This is a rewarding and exciting learning process.

From AIGS happy to inform you that our 6 student had participated in the "National Level Competition for men" on 23-12-2017 to 01-01-2018 organised by 39<sup>th</sup> Senior National Level Duttu Pulia West Bengal.

The management, principal, teaching and non-teaching faculty of AIGS congratulates the participants, Physical education director Mr. Mahesh P M.

## DEPARTMENT OF PHYSICAL EDUCATION

baseball (men)

The Acharya Institute of Graduate Studies (AIGS) was established in 2005 by B.Premnath Reddy, Chairman of the Acharya Group of Institutions. The college is managed by the JMJ Education Society, Headquartered in Bengaluru. Acharya's unmatched sporting infrastructure along with its highly qualified coaches and instructors has made us one of the top institutions in the area of sports in Bangalore. The sporting culture of Acharya helps develop teamwork, leadership, tolerance, and determination within our students. The purpose of Youth Sports Development is to promote sports in all over our children. It is a platform to provide the opportunity to participate the Youth to develop the skill of sport event in which he is interested and thus become competent to win prize in Organized Tournament.

At Acharya, our educational philosophy is broader than simply academics. Being one of the best colleges in Bangalore, our mission is to provide our students with a holistic life experience, by integrating carefully planned facilities and activities into the daily campus routine, we ensure our students become responsible human beings and prepare them to face the challenges of life. Organized, well-structured youth sports and on-going physical activities can provide many benefits for children and adolescents. Positive experiences that sport and an active lifestyle bring play an important role in a young person's life.

Acharya Institutes, committed to the cause of value-based education in all disciplines, envisions itself as fountainhead of innovative human enterprise, with inspiration initiatives for academic excellence. AIGS is endowed with modern physical, technological, and academic infrastructure and provides world class learning ambience to its students. The word "Acharya" in Sanskrit signifies "a powerful guru." exemplifies our institution's core principles, which place a high priority on treating professors with respect.

**Baseball** is a bat-and-ball sport played between two teams of nine players each, taking turns batting and fielding. The game is live when the umpire signals to the pitcher either verbally or by pointing, indicating that the ball is now in play. A player on the fielding team, called the pitcher, throws a ball that a player on the batting team tries to hit

  
PRINCIPAL  
Acharya Institute of Graduate Studies  
Soldevanahalli, Hazaraghatta Road  
Bengaluru - 560107

with a bat. The objective of the offensive team (batting team) is to hit the ball into the field of play, away from the other team's players, allowing its players to run the bases, having them advance counter-clockwise around four bases to score what are called "runs". The objective of the defensive team (referred to as the fielding team) is to prevent batters from becoming runners, and to prevent runners' advance around the bases. A run is scored when a runner legally advances around the bases in order and touches home plate (the place where the player started as a batter).

Baseball evolved from older bat-and-ball games already being played in England by the mid-18th century. This game was brought by immigrants to North America, where the modern version developed. Baseball's American origins, as well as its reputation as a source of escapism during troubled points in American history such as the American Civil War and the Great Depression, have led the sport to receive the moniker of "America's Pastime"; since the late 19th century, it has been unofficially recognized as the national sport of the United States, though in modern times is considered less popular than other sports, such as American football. In addition to North America, baseball is considered the most popular sport in parts of Central and South America, the Caribbean, and East Asia, particularly in Japan, South Korea, and Taiwan.

Sports require memorization, repetition, and learning — skillsets that are directly relevant to class work. Also, the determination and goal-setting skills a sport requires can be transferred to the classroom. Achieving a sport or fitness goal encourages you to achieve other goals you set. This is a rewarding and exciting learning process.

We are happy to inform that our 15 student had participated in the "University Level Competition" on 25-11-2017 to 26-11-2017 at university, organised by Bangalore university.

The management, principal, teaching and non-teaching faculty of AIGS congratulates the participants, Physical education director Mr. Mahesh P M.

**Chess** is a board game between two players. It is sometimes called international chess or Western chess to distinguish it from related games, such as xiangqi (Chinese chess) and shogi (Japanese chess). The current form of the game emerged in Spain and the rest of Southern Europe during the second half of the 15th century after evolving

*[Signature]*  
**PRINCIPAL**

Acharya Institute of Graduate Studies  
Soladevanahalli, Hezaraghatta Road  
Bengaluru - 560107

from chaturanga, a similar but much older game of Indian origin. Today, chess is one of the world's most popular games, played by millions of people worldwide.

Chess is an abstract strategy game and involves no hidden information. It is played on a chessboard with 64 squares arranged in an eight-by-eight grid. At the start, each player controls sixteen pieces: one king, one queen, two rooks, two bishops, two knights, and eight pawns. The player controlling the white pieces moves first, followed by the player controlling the black pieces. The object of the game is to checkmate the opponent's king, whereby the king is under immediate attack (in "check") and there is no way for it to escape. There are also several ways a game can end in a draw.

Organized chess arose in the 19th century. Chess competition today is governed internationally by FIDE (International Chess Federation). The first universally recognized World Chess Champion, Wilhelm Steinitz, claimed his title in 1886; Magnus Carlsen is the current World Champion. A huge body of chess theory has developed since the game's inception. Aspects of art are found in chess composition, and chess in its turn influenced Western culture and art, and has connections with other fields such as mathematics, computer science, and psychology.

Sports require memorization, repetition, and learning — skillsets that are directly relevant to class work. Also, the determination and goal-setting skills a sport requires can be transferred to the classroom. Achieving a sport or fitness goal encourages you to achieve other goals you set. This is a rewarding and exciting learning process.

We are happy to inform that our 2 students Mr. Tilak and Mr. Madhuresh Kumar had participated and won 1<sup>st</sup> and 2<sup>nd</sup> place respectively in the "Intercollegiate Level Competition from 11-11-17 organised by Soundarya IMS College, Bangalore university.

The management, principal, teaching and non-teaching faculty of AIGS congratulates the participants, Physical education director Mr. Mahesh P.M.

### About Acharya

Acharya Institutes is an educational organization consisting of 11 institutes that offer specializations in various fields and foster interdisciplinary courses. Acharya Institutes is a sprawling 120 acre campus, with Bengaluru's largest Wi-Fi-enabled composite academic facility. Acharya Institutes has 15 research centers, 50 academic streams with over 100 programs. 5000 students from 75 nationalities are presently pursuing their education at Acharya Institutes.

### About AIGS

Acharya Institute of Graduate Studies (AIGS) was founded in 2005, and is counted among the top graduate colleges in Bengaluru. The Institute offers Undergraduate and Postgraduate courses in a variety of subjects that include Language, Social Work, Social Sciences, Sciences, Commerce, Management, Marketing, Accounting, Fashion and Apparel Design, etc. AIGS is endowed with modern physical, technological and academic infrastructure and provides a world-class learning ambience to its students. AIGS is committed to mentoring its students beyond the prescribed curriculum aspects.

### About the Department

Acharya Institute of Graduate Studies understands physical education department has a well built sports infrastructure. With highly qualified coaches and instructors, with facilities including a 10,000 seater, Olympic Sized Stadium, Indoor Sporting Facility, Basketball, Volleyball, Badminton Courts enabling sports including Archery, Gymnasium, Horse Riding, Cricket, Football, American Football, Softball, Rugby, Baseball, Table Tennis, Track and Field sports forms the perfect setting to nurture the dedicated into the best sports-persons on campus.

### About the Event

the competitors will need to show both strength and muscle definition as well as flexibility and confidence. Judges look for an overall balance and strong, well-developed physique with excellent presentation

**ACHARYA INSTITUTE OF GRADUATE STUDIES**  
(NAAC Accredited 'A' and Affiliated to Bangalore University)  
Soldevanahalli, Bengaluru-560107

**DEPARTMENT OF PHYSICAL EDUCATION**

**Best physique**

The Acharya Institute of Graduate Studies (AIGS) was established in 2005 by B.Premnath Reddy, Chairman of the Acharya Group of Institutions. The college is managed by the JMJ Education Society, Headquartered in Bengaluru. Acharya's unmatched sporting infrastructure along with its highly qualified coaches and instructors has made us one of the top institutions in the area of sports in Bangalore. The sporting culture of Acharya helps develop teamwork, leadership, tolerance, and determination within our students. The purpose of Youth Sports Development is to promote sports in all over our children. It is a platform to provide the opportunity to participate the Youth to develop the skill of sport event in which he is interested and thus become competent to win prize in Organized Tournament.

At Acharya, our educational philosophy is broader than simply academics. Being one of the best colleges in Bangalore, our mission is to provide our students with a holistic life experience, by integrating carefully planned facilities and activities into the daily campus routine, we ensure our students become responsible human beings and prepare them to face the challenges of life. Organized, well-structured youth sports and on-going physical activities can provide many benefits for children and adolescents. Positive experiences that sport and an active lifestyle bring play an important role in a young person's life.

Acharya Institutes, committed to the cause of value-based education in all disciplines, envisions itself as fountainhead of innovative human enterprise, with inspiration initiatives for academic excellence. AIGS is endowed with modern physical, technological, and academic infrastructure and provides world class learning ambience to its students. The word "Acharya" in Sanskrit signifies "a powerful guru." exemplifies our institution's core principles, which place a high priority on treating professors with respect.

**Bodybuilding** is the use of progressive resistance exercise to control and develop one's muscles (muscle building) by muscle hypertrophy for aesthetic purposes. It is distinct

*Anidya*  
PRINCIPAL

Acharya Institute of Graduate Studies  
Soldevanahalli, Heeraghatta Road  
Bengaluru - 560107

from similar activities such as powerlifting because it focuses on physical appearance instead of strength. An individual who engages in this activity is referred to as a **bodybuilder**.

In professional bodybuilding, competitors appear in lineups and perform specified poses (and later individual posing routines) for a panel of judges who rank them based on symmetry, muscularity, size, conditioning, posing, and stage presentation. Bodybuilders prepare for competitions through the elimination of nonessential body fat, enhanced at the last stage by a combination of extracellular dehydration and carbo-loading, to achieve maximum muscular definition and vascularity; they also tan and shave to accentuate the contrast of their skin under the spotlights.

Bodybuilding takes a great amount of effort and time to reach the desired results. A bodybuilder might first be able to gain 8–20 pounds (4–9 kg) of muscle per year, if lifting for seven hours on a weekly basis. However, gains begin to slow down after the first two years to about 5–15 pounds (2–7 kg). After five years, gains can decrease to just 3–10 pounds (1–5 kg).

Sports require memorization, repetition, and learning — skillsets that are directly relevant to class work. Also, the determination and goal-setting skills a sport requires can be transferred to the classroom. Achieving a sport or fitness goal encourages you to achieve other goals you set. This is a rewarding and exciting learning process.

We are happy to inform you that our 1 of the student Mr. Mohammad Yunus 3<sup>rd</sup> BBA had participated and won Bronze medal in the "University Level Competition" on 14-10-17 organised by Bengaluru University.

The management, principal, teaching and non-teaching faculty of AIGS congratulates the participants, Physical education director Mr. Mahesh P M.

The word "Acharya" in Sanskrit signifies "a powerful guru." exemplifies our institution's core principles, which place a high priority on treating professors with respect.

**Baseball** is a bat-and-ball sport played between two teams of nine players each, taking turns batting and fielding. The game is live when the umpire signals to the pitcher either verbally or by pointing, indicating that the ball is now in play. A player on the fielding team, called the pitcher, throws a ball that a player on the batting team tries to hit with a bat. The objective of the offensive team (batting team) is to hit the ball into the field of play, away

*[Signature]*  
**PRINCIPAL**

Acharya Institute of Graduate Studies  
Soldevanahalli, Bengaluru-560107  
Bengaluru - 560107

from the other team's players, allowing its players to run the bases, having them advance counter-clockwise around four bases to score what are called "runs". The objective of the defensive team (referred to as the fielding team) is to prevent batters from becoming runners, and to prevent runners' advance around the bases. A run is scored when a runner legally advances around the bases in order and touches home plate (the place where the player started as a batter).

Baseball evolved from older bat-and-ball games already being played in England by the mid-18th century. This game was brought by immigrants to North America, where the modern version developed. Baseball's American origins, as well as its reputation as a source of escapism during troubled points in American history such as the American Civil War and the Great Depression, have led the sport to receive the moniker of "America's Pastime"; since the late 19th century, it has been unofficially recognized as the national sport of the United States, though in modern times is considered less popular than other sports, such as American football. In addition to North America, baseball is considered the most popular sport in parts of Central and South America, the Caribbean, and East Asia, particularly in Japan, South Korea, and Taiwan.

Sports require memorization, repetition, and learning — skill sets that are directly relevant to class work. Also, the determination and goal-setting skills a sport requires can be transferred to the classroom. Achieving a sport or fitness goal encourages you to achieve other goals you set. This is a rewarding and exciting learning process.

The student cooperation on ground was splendid so the competition came out successfully. We are overjoyed to inform that from our college 15 students had participated in the "University level competition" on 11-09-17 at university, organised by Bangalore University at Acharya Institutes of Graduate Studies.

The management, principal, teaching and non-teaching faculty of AIGS congratulates the participants, Physical education director Mr. Mahesh P M.

## DEPARTMENT OF PHYSICAL EDUCATION

### Taekwondo

The Acharya Institute of Graduate Studies (AIGS) was established in 2005 by B.Premnath Rao Reddy, Chairman of the Acharya Group of Institutions. The college is managed by the JMJ Education Society, Headquartered in Bengaluru. Acharya's unmatched sporting infrastructure along with its highly qualified coaches and instructors has made us one of the top institutions in the area of sports in Bangalore. The sporting culture of Acharya helps develop teamwork, leadership, tolerance, and determination within our students. The purpose of Youth Sports Development is to promote sports in all over our children. It is a platform to provide the opportunity to participate the Youth to develop the skill of sport event in which he is interested and thus become competent to win prize in Organized Tournament.

At Acharya, our educational philosophy is broader than simply academics. Being one of the best colleges in Bangalore, our mission is to provide our students with a holistic life experience, by integrating carefully planned facilities and activities into the daily campus routine, we ensure our students become responsible human beings and prepare them to face the challenges of life. Organized, well-structured youth sports and on-going physical activities can provide many benefits for children and adolescents. Positive experiences that sport and an active lifestyle bring play an important role in a young person's life.

Acharya Institutes, committed to the cause of value-based education in all disciplines, envisions itself as fountainhead of innovative human enterprise, with inspiration initiatives for academic excellence. AIGS is endowed with modern physical, technological, and academic infrastructure and provides world class learning ambience to its students. The word "Acharya" in Sanskrit signifies "a powerful guru." exemplifies our institution's core principles, which place a high priority on treating professors with respect.

**Taekwondo** is a Korean form of martial arts involving punching and kicking techniques, with emphasis on head-height kicks, spinning jump kicks, and fast kicking techniques. The literal translation for tae kwon do is "kicking", "punching", and "the art or way of". They are a kind of martial arts in which one attacks or defends with hands and feet

*Principals*  
**PRINCIPAL**

Bengaluru - 560107

anytime or anywhere, with occasional use of weapons. The physical training undertaken in Taekwondo is purposeful and fosters strength of mind through mental armament.

Taekwondo practitioners wear a uniform, known as a dobok. It is a combat sport and was developed during the 1940s and 1950s by Korean martial artists with experience in martial arts such as karate, Chinese martial arts, and indigenous Korean martial arts traditions such as Taekkyon, Subak, and Gwonbeop.

Sports require memorization, repetition, and learning — skillsets that are directly relevant to class work. Also, the determination and goal-setting skills a sport requires can be transferred to the classroom. Achieving a sport or fitness goal encourages you to achieve other goals you set. This is a rewarding and exciting learning process.

We are delighted to inform that our student Mr. Manoj participated in the "University Level Competition organized by Bangalore University which is organized by GFGC Yalahanka on 01-09-2017

The management, principal, teaching and non-teaching faculty of AIGS congratulate the participants, Physical education director Mr. Mahesh P M.

CULTURAL COMMITTEE

UG ORIENTATION PROGRAMME 2018-19

Orientation is a Programme before the start of an academic year at Acharya Institutes. A variety of events are held to orient and welcome new students during this period. Undergraduate orientation in Acharya Institute of Graduate studies involves numerous activities designed to help you get acquainted with the campus and surrounding area as well as finalize certain details about attendance, Curricular and Co-curricular activities, etc., Often, students will participate in several sessions, each focused on a particular area like a College policy and rules, Introducing heads and working of different departments, Placements assistance, Scholarship details, an overview of financial aid, and some history about the institution.

Student orientation programme plays an important role in a student's transition to a university life. Orientation programmes are aimed at familiarizing the students to an unknown campus environment, its faculties and infrastructure. It enables them to make essential connections with studies and develop networks among other peers. "Where will be my classroom? What will be my majors? What is the course structure?" Umpteen numbers of questions loom in the minds of students, when they start their college life. Students are highly recommended attending these as it can be a great opportunity in enhancing their academic growth.

In the beginning of the first year, students need to be made acquainted with their surroundings on campus. This includes introductory sessions, giving them an overview of the university life; the rules and regulations mandated for each student in a particular college/ faculty. It is an essential period at the beginning of the college session, which allows the students to get settled in their new environment. Teacher coordinator of every stream sets a model of introductory orientation programme that includes academic as well as social activities. The three basic goals of any university/college when organizing an orientation week/month are: Introducing students to their college life, incorporating them in the university environment and giving the opportunity to the university members and faculties to get connected to the new batch.

*Candice*  
PRINCIPAL  
Acharya Institute of Graduate Studies  
Soldevanahalli, Bengaluru-560107  
Bengaluru-560107

Introducing Students to a college life :- This is the most essential aspect of an orientation programme in any university, irrespective of the nature of the course. Students need to be made aware of the social environment of their university/college. This social factor most definitely includes the extracurricular activities, social clubs, events, workshops and other special training programmes available in the college course. This encourages them and helps them in getting socially integrated with the college culture. In the early few weeks of the college itself, a student should be able to discover his interest in any of the college activities other than the mainstream course. Social involvement will make sure that students don't lose interest in college life and hence are regular with their attendance. Introductory sessions most importantly aim at giving an overview about the academic course, pursued by the students. By giving a rough idea of academic expectations, students are prepared for the challenges they might face during their graduation/postgraduate programmes. Often in the orientation programmes, eminent lecturers and experts in various fields are introduced to the new students, to mentally prepare them for the awaited professional life they have set out to achieve.

Orientation programmes in colleges also give opportunities to students where they can self-evaluate their aptitude level, by participating in the workshops and discussion sessions. Attending Orientation enables students to make important connections with the collegiate environment, academic studies, peers and network with the campus community.

Incorporating students in the university environment - The second most important aspect of an orientation programme is to make students accustomed to the campus surrounding. For many students going to college may be their first experience away from home, so the orientation programme gives them the required aid in getting acquainted with their new neighborhood.

Answering all their queries and doubts, counseling, guiding them in the choice of their social clubs are some of the activities involved in these orientation sessions.

In this manner, orientation helps students get their attitude right as best suited for the new place. Campus maps, guided tours in the campus allow them to physically get apprised of the college interiors so that they do not find themselves lost. Orientation programmes are the best platform for the new students to get a total overview of what all a university has to offer.

Giving opportunity to the university members and faculty to get connected with the new batch:- Involving the entire university community in the orientation programme is the most

Acharya  
S.

Studies  
Road

effective aspect as it gives the students and teachers an equal opportunity to interact with each other. The entire campus community including the faculty, dining services, housing, facilities management, and student activities groups gets involved in this programme of welcoming new students. There were a number of cultural programmes organized by NCC, NSS and cultural committee students and it entertained the whole crowd. The following are the names of students who performed at the celebrations: Aishwarya C Nair, Fiza Ameer representing AIGS.

The interaction among the students and the college community strengthens student's persistence in the college. A feeling of belongingness is inculcated in a student's mind during the orientation, which makes them feel a part of the university community. Institutions appoint old students as the orientation leaders who can also share their own experience with the newcomers and make them aware of the awaited experience. College orientation is a great time for meeting new people and getting a thorough look at the future campus. The principal of AIGS Dr. Gurunath Rao Vaidya, with In charge Principal Dr. Anil B Malali with other the departments heads and several functional heads conducted a meeting to roll out a plan of conducting an Orientation Programme for the fresh students to introduce them to college services which will support their educational and personal goals. The overall responsibility of conducting the programme was given to Mrs. Malarvelze of the Department of Economics. The dates were fixed from 18-06-18 to 22-06-18 for different activities each day accordingly, by checking the other requirements for the event. The three day Schedule was planned for the introduction of the Institution and different departments with the standing committee working in AIGS. The detailed description of the three days plan is given below:

### Short Film Festival- Canned Dreams.1

The Acharya Institute of Graduate Studies (AIGS) was established in 2005 by Premnath Reddy, Chairman of the Acharya Group of Institutions. The college is managed by the JMJ Education Society, Headquartered in Bengaluru. At Acharya, our educational philosophy is broader than simply academics. Being one of the best colleges in Bangalore, our mission is to provide our students with a holistic life experience, by integrating carefully planned facilities and activities into the daily campus routine, we ensure our students become responsible human beings and prepare them to face the challenges of life.

Acharya Institutes, committed to the cause of value-based education in all disciplines, envisions itself as the fountainhead of innovative human enterprise, with inspiring initiatives for academic excellence. AIGS is endowed with modern physical, technological, and academic infrastructure and provides world class learning ambience to its students. The word "Acharya" in Sanskrit signifies "powerful guru", which places a high priority on treating professors with respect.

The objective of the event is to support learning and foster creative collaborations in the context of film, television and other art forms of the moving image and to provide opportunities to inspire audiences and raise awareness about film and other related art forms. When it comes to entertainment, films are always on the top of the list because everyone loves to watch movies. There is a film for all ages and people could bond over it. A short film is the production of audio and visual communication based on cinematography. Short film festivals are events that focus on the screening of short films.

The typical length for a short film is 10 minutes or less, which has been found to be an optimal amount of time that will keep viewers engaged and entertained.

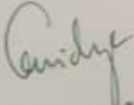

Principal

Acharya Institute of Graduate Studies  
Soladevanahalli Hesaraghatta Road  
Bengaluru - 560107.

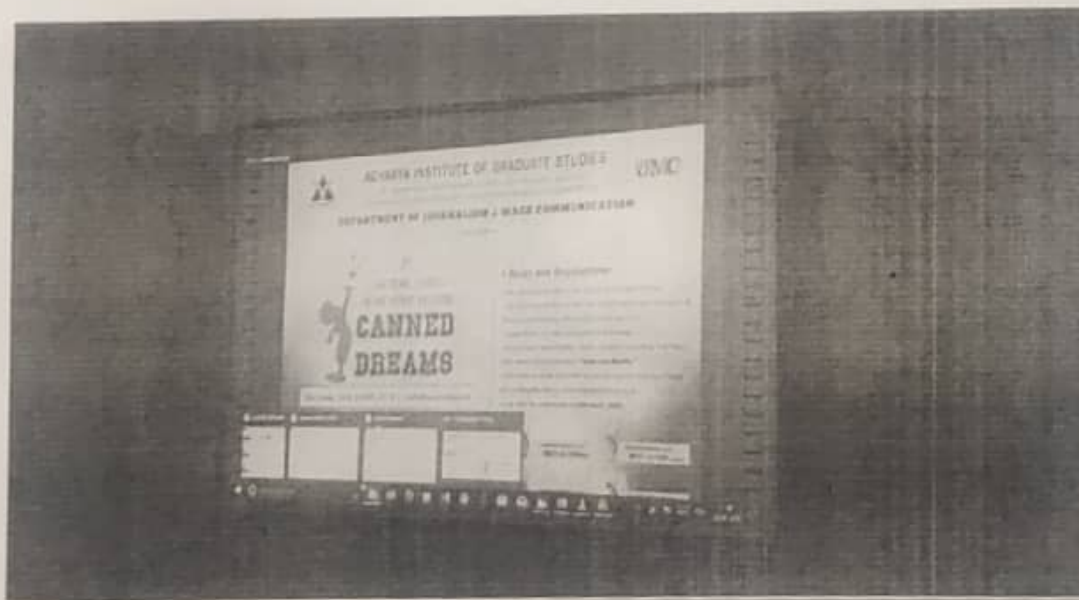

The Department of Journalism and Mass Communication had organized its first National Level Short Film Festival on 28<sup>th</sup> April 2018. The event started by the invocation song by Varsha Venugopal a student of BA, PJOE at 10.30am on Saturday. Ms. Geetha Shankar a renowned personality in the field of Film and Public relations inaugurated the event. Prof. A.S.Chandramouli, Head of the department along with faculty Ms. Premavathi. M and Mr. Prashanth V also the organizers of the event were present on the occasion. Movies in Kannada, English, Hindi, Malayalam, and Tamil with English subtitles were screened for almost 4 hours. The hall was full with enthusiastic student viewers including the technical crew and faculty members of AIGS. It was a tough task for the judges to decide which the best movie was, because all those screened were at their best in different areas like acting, screenplay, photography, direction etc. Sampling the globalized industry of food-production leaves a bittersweet taste, an empathetic if somewhat surface-skimming Finnish documentary which painstakingly traces all the ingredients that go into a humble can of ravioli. Two sequences of graphically bloody slaughterhouse footage certainly aren't for the squeamish, but socially-conscious travelog – co-funded by several small-screen networks – is overall a slickly-assembled, easily-digested dip into increasingly topical issues and will likely prove a popular choice for non-fiction festivals and TV channels

Finally the program ended with the announcement of prize winners in six different categories. The best short movie was awarded to the movie 'Perspective' by Acharya School of Design, the best actor Mr. Vaishnav from the movie 'Dream', the best script was awarded to the movie 'Naina', the best director Mr. Pravan Pandurangam from the movie Marmam Arivaan, the best cinematography was awarded to 'Mirror', and the best art film was 'KOOLA' directed by Sujeesh Surendran. Mr. Chandramouli, while proposing the vote of thanks also gave an inspirational speech for the upcoming movie makers. The participation of the students was found extraordinary, which motivated the organizers to conduct several more festivals in the coming years.

CULTURAL COMMITTEE

UG GRADUATION DAY-2018

Graduation day of Undergraduate courses was organised on 21-04-18 at 10:15 AM .The Chief guest for the day was Dr. Japhet, Vice Chancellor, Bengaluru Central University. The other dignitaries on the stage were Dr. Divakar Goli, Campus Director, Mr. Nagi Reddy, Head HR Acharya Institutes, Dr. Anil B. Malali, Vice Principal and Dr. Gurunath Rao Vaidya, Principal.

The biggest day of your life so far, apparently. And although it feels like only yesterday your parents were dropping you off at your first year halls of residence, tears in their eyes, they're now back, Dad in a ridiculously outdated double-breasted suit and Mum in a garish feathered fascinator (until, that is, you swipe it from her head and chuck it in the nearest bush). There's been colossal build-up to your graduation ceremony – from measuring yourself for your gown, to getting enough tickets for the family, and now all you need to do is see it through the day. Contrary to the hype, graduation day can actually be pretty stressful.

Don't let this put you off however, as graduation day will be a lasting memory of university life and is a day where you'll be the subject of pride in the eyes of your parents, your tutors and your peers, having successfully completed your degree. For parents, graduation day probably couldn't have come sooner, as it not only means that they've successfully raised an educated child but also that you might soon stop scrounging from the Bank of Mum and Dad. Their pride upon envisioning those new letters adjacent to the family name will no doubt lead to tears, tight, squeezey hugs and even more tears. Instead of getting embarrassed and batting them away, embrace the moment, hug them back, act humble and laugh it off if you have to. Graduation ceremonies will require a lot of sitting down, standing up and applauding people you don't know, but this doesn't mean you can just leave once your name has been called. Your peers are supporting you so it's important that you do the same for them by clapping along with everybody else. You'll be sweaty, have achy hands from clapping so much, and will probably start to feel a bit restless, but you have to sit through the whole thing and try not

*Vaidya*

Soladevanahalli, Hesaraghatta Road  
Bangalore - 560107

to complain. Besides, when you get out you might be given a glass of champagne, and can toss your mortarboard in the air with your peers with all the joy in the world. Just try not to think about, you know, Adulting. Earning an associate degree or certificate is a major life accomplishment, and you should be proud. We know that you worked hard to arrive at this moment. This milestone also marks fulfillment of a promise from our incredible faculty and staff who have inspired, challenged, and supported you on your journey at Middlesex College. On the Graduation Day, the energy of our graduates was unmatched as they ushered in the most awaited event of their academic life amongst their friends and teachers in our college. The event began with a photo session of the students from each department, capturing their memories on camera, along with their HODs, sharing the stage one last time.

The graduation day is scheduled during the end of the academic year. Parents and guardians are welcome to attend the session. The ceremony starts with a formal session, followed by an informal session and photograph session. Students who have achieved the total credits for the respective programme are eligible to attend the graduation day ceremony. But the economic benefits are not equally felt among college graduates. A new Pew Research Center analysis of data from the Federal Reserve Board finds that first-generation college graduates are not on equal footing with their peers who have college-educated parents. Among household heads who have at least a bachelor's degree, those who have a parent with a bachelor's degree or more education have substantially higher incomes and more wealth than those who are the first generation in their family to graduate from college. As rites of passage go, few are as momentous as college graduation. The commencement ceremony marks the end of one journey and the beginning of another. It's the culmination of years of hard work and a bridge to a future in either the workforce or to graduate school. The scene for most commencements is largely the same. Hundreds or even thousands of students and family members pack into an arena to celebrate. Students make the procession to collect their diploma as family and friends cheer. There also may be a long-winded speaker doling out life and career advice before students can collect their degree and take selfies with classmates. Given the importance of the moment, graduates and families should make the most of commencement, Corey says. "It's a really important ritual that students and their families value; it becomes a sort of performance of accomplishment."

A student who is pursuing a degree after high school, at the first level of higher education at a college or university is an undergraduate student. Undergraduate students are typically those

Achar  
PRINCIPAL  
Graduate Studies  
Bhagwati Road  
20107

working to earn a bachelor's degree, an associate's degree. An undergraduate (UG) degree is sometimes called a first degree outside of the US. There are other types of undergraduate degrees as well outside of the US like foundation degree. An academic degree is a qualification awarded to students upon successful completion of a course of study in higher education, usually at a college or university. These institutions commonly offer degrees at various levels, usually including undergraduate degrees, master's, and doctorates, often alongside other academic certificates and professional degrees. The most common undergraduate degree is the bachelor's degree, although in some countries there are lower level higher education qualifications that are also titled degrees. What an incredible group of people you are, particularly as you have succeeded against the backdrop of the pandemic.

We need people now who understand a long-term, human-centric approach to the built environment, who are sensitive to and appreciative of the natural environment within which our buildings sit, and people who (most importantly) are unerring in upholding the highest professional standards and quality. The sector needs you more than ever and I feel confident and more relaxed knowing that UCEM graduates will continue to be at the centre of exceptional solutions for the built environment. Equally, as a result, UCEM's role is more important than ever. You'll be aware that UCEM celebrated its centenary year in 2019, and from our humble beginnings in 1919 following the institution's foundation by Sir William Wells to meet the postwar demand for new building and construction, it has grown to become the largest provider of higher education to the built environment professions with more than 4,000 students studying in more than 115 countries. The reasons we are here and why we exist are clear in our Royal Charter. UCEM's mission is emphasised in the six tenets of our core purpose: to provide truly accessible, relevant and cost-effective education, enabling students to enhance careers, increase professionalism and contribute to a better built environment.

Our job – in fact, my job – is straightforward: to fully support our students' education ambitions, wherever they are and at whatever level, whether they wish to go slow or fast, regardless of age, start-point or background, without unnecessary barriers. We want to make sure we are equipping each and every possible UCEM student today with the necessary skills to ensure the built environment of tomorrow is an exceptional one. Ultimately, amongst a long list of life lessons, one of the most important is about how we navigate ourselves in the face of all the obstacles ahead and remain on course to reach our destination. Because, the

ship that will not obey the helm, will have to obey the rocks. To be at the helm is to hold responsibility and to be in control. Times of change are perfect for reflections, so let's reflect upon the road we have trekked so far. Over the past two decades, educational exchanges around the world have boomed—especially for China. The number of Chinese students in the US has long claimed the top spot, surging from over 90,000 to over 300,000 between 2008 and 2018. The past 20 years also witnessed the growth of globalization, from which China has reaped great benefits: capital, technology, and talents flushing in, people going out to every corner of the world for study and business. Total 607 Final year students from various departments (BBA,B.Com,BCA,BA,B.Sc-FAD,B.Sc) were felicitated with Course completion certificate. Best Outgoing student –International was bagged by Mr. Tariq Hamid from BBA and AIGS Valedictorian was Ms.Sonali Nambiar from BA Department. The programme started with the invocation, lighting of the lamp, and followed by formal programmes. Parents also witnessed the programme. There were a number of cultural programmes organized by cultural committee students and it entertained the whole crowd. The following are the names of students who performed at the graduation ceremony: Pavitra Katta, Shubang, Ann, and Navya representing AIGS.

PHOTOGRAPHY COMPETITION CUM EXHIBITION

A Magical Touch: Magic Eye 4.0

The Acharya Institute of Graduate Studies (AIGS) was established in 2005 by Premnath Reddy, Chairman of the Acharya Group of Institutions. The college is managed by the JMJ Education Society, Headquartered in Bengaluru.

At Acharya, our educational philosophy is broader than simply academics. Being one of the best colleges in Bangalore, our mission is to provide our students with a holistic life experience, by integrating carefully planned facilities and activities into the daily campus routine, we ensure our students become responsible human beings and prepare them to face the challenges of life.

Acharya Institutes, committed to the cause of value-based education in all disciplines, envisions itself as the fountainhead of innovative human enterprise, with inspiring initiatives for academic excellence. AIGS is endowed with modern physical, technological, and academic infrastructure and provides world class learning ambience to its students. The word "Acharya" in Sanskrit signifies "a powerful guru." exemplifies our institution's core principles, which place a high priority on treating professors with respect.

Department of Journalism and Mass Communication hosted the fourth edition of MAGIC EYE 4.0 a photography competition cum exhibition on 13<sup>th</sup> April 2018 at Acharya Institute of

Graduate Studies. The event was conducted on the first floor with beautiful art decoration and each step stood up saying a line on the art of Photography. The event was inaugurated by Prof. Gurunath Rao Vaidya, Principal, AIGS, Dr. Maheshappa, Head, Mechanical department, Prof.Chandra Mouli, Head, department Journalism and Mass Communication and Heads and faculty members of other departments were present. The competition had 180 entries from various institutions all over Bangalore and the students within the campus also participated in Photography and caption writing competition. The 4<sup>th</sup> year of MAGIC EYE - 2018 was a huge hit since it attracted a lot of people from various departments within campus to visit the gallery and participate in the competition.

The theme of the event was **BEST CLICK**, and therefore it had a huge collection of individual talent touching most of the aspects, ranging from nature, animals to the emotions was exhibited in a very attractive way. The art gallery was the highlight of the day, as students exhibited their pencil sketches and paintings. The interesting and innovative part of the event was the hangings of Facebook, Instagram and Snapchat frames where students enjoyed taking pictures with them. The initiative was taken by Prof.Premavathi and Prof. Prashanth Venugopal, and was supported by student volunteers of both Undergraduate & Postgraduate students of Journalism & Mass Communication. The Best Click and the winner of Magic Eye 2018 was Anandhu Ramakrishna, MA Journalism Final year and the Best Caption was Pranav Santhosh, BA Second Year (PJOE).

The objective of the event was to go an extra mile in achieving excellence in Journalism and Mass communication teaching and to impart the best and useful industrial practices in the faculty and students. The effort is also to enable students to cope with the industry requirements so that they adapt themselves and soon after they graduate, they can meet media expectations. Through peer-based interactions and club activities, the students are kept up to date with emerging trends in the field. The students will have better understanding of individual, interpersonal and group processes, in relation to multiple contexts. Students will be able to prepare news and other media content. Perform the public relations and Corporate communication activities. Gain perceptive insights into the socio-political dynamics, the structuring points of view, the dominant ideology, hegemony, the prevailing common sense and communal underpinnings that mediate the writing, production, reception and survival of a work

**ACHARYA HABBA 2018**

The most awaited Acharya Institutes' fest, Acharya Habba was celebrated in all its glory and witnessed crowds from all over Bengaluru. The event started on 22-03-2018 and concluded on 24-03-2018.

The event was extremely well conducted and the students from various institutes of Acharya came together as a family and ensured that the event took place smoothly. The events of Habba ranged from literary activities, Gaming and culture too. The literary activities included events like debate, while the gaming activities included games like DOTA and NFS. The culture was the main attraction and the crowd gathered in huge numbers to fulfill their artistic thirst. The very first day of the event included singing and concluded with a music concert from the professional band called the 'Peepal tree'. On the second day, The chief attraction was 'Dance Trance India' where the audience witnessed more than 25 dance performances and it concluded with a music concert from Sanchith Hegde , who was one of the contestant of Sa re ga ma pa , a music show that was a huge hit in Karnataka. The last day of Habba fittingly came to an end by a DJ show and a musical extravaganza by Carolina Martinez and DJ Daljit. The students and the faculty members enjoyed the show and the fact that majority of them were accompanied by their families gave an insight into the quality of the programmes. A grand and glamorous fashion show was held in the College. The beautiful and gorgeous students from every department took part in the show as models. The ramp show was dazzling with outstanding designer works by the fellow students of our Fashion Designing Department. Students play a central role in all aspects of the Fashion Show. students participated in 20 events. including, bands, dancing, painting, collage, sketching, doodling, poetry, standup comedy, photography and short film making. "It is our way of affirming the diverse culture of India represented by the student community," says mentor of fashion show, an alumnus of the college. For the fashion show, 30 students from 20 departments dressed in various ethnic outfits and took the runway ramp walk to specially choreographed music, incorporated youth from different ethnic backgrounds which was

Bengaluru - 560107

considered as an achievement in that specific area. Most of the young people got to expose their talents i.e in music, fashion shows and sports. It helped build their self esteem and confidence to face a crowd and also enhanced teamwork amongst themselves. This is celebrated with the parents, students of the whole year of the batch and its teachers. All the parents are invited to this celebration. All the students prepare for cultural programs as a group and single dances, songs, drama's etc. This celebration helps the students to attract their interest in cultural activity. They get passionate about one of the arts. This way they also get an opportunity to find their passion and can also choose their career in that passion. This is the reason why this annual function is important to celebrate in all colleges. Students introducing friends and their family with each other. It was an unforgettable event of the year.

There were a number of cultural programmes organized by the cultural committee students and it entertained the whole crowd. The following are the names of students who performed at the celebrations: Abhijith, Vidya, Vyshnavi, Shivani, Tejaswini, Tripti, Divya, Jeevitha, Praveen, and Kapil representing AIGS.

The celebration also increases the competition among the students which helps them to perform better. Students get a chance to represent them near a big audience, incorporating youth from different ethnic backgrounds which was considered as an achievement in that specific area. Most of the young people got to expose their talents i.e in music, fashion shows and sports. All the events were so exciting that the audience enjoyed them very much. At the end of the program, there was the prize-giving session. But before it, the chief guest and the special guest were given some time to say something. The chief guest in his speech put stress on the necessity of extracurricular activities of the students. He thanked the college authority, the teachers and the students for organizing such a wonderful cultural program. "The practice of cultural activities will surely perfect the academic career of the students," he remarked. The special guest also gave a short speech appreciating the wonderful performance of the students. The program ended with the thanks-giving speech of the Principal. It helped build their self esteem and confidence to face a crowd and also enhanced teamwork amongst themselves. Being involved with young people in exploiting the best in them and showing them that they play a part in building their lives is in itself motivation to keep them participating in as many activities as possible, which in time leads to their changing their mindset to a positive attitude. Having a powerful mindset is the greatest weapon to humanity since it can either build or destroy ideas. What began as a small idea has grown into one of the most well-known events. Organizers of cultural events seek to promote the values associated

### CULTURAL COMMITTEE

### ETHNIC DAY 2018

In the era of modernization and westernization when most of the people are moving away from their own culture and history, events like Ethnic day enable the young generation to revive love and respect for their own culture and history.

Ethnicity plays a major role in how students' personality is shaped..... Little ones were provided with an opportunity to celebrate the diversity of vibrant and colourful India. The whole campus seems to be charged with ethnic atmosphere when a mini India was created with students in their dazzling, colourful, exquisite traditional apparels.

The Acharya Institute of Graduate Studies (AIGS) was established in 2005 by Premnath Rao Reddy, Chairman of the Acharya Group of Institutions. The college is managed by the JMJ Education Society, Headquartered in Bengaluru. At Acharya, our educational philosophy is broader than simply academics. Being one of the best colleges in Bangalore, our mission is to provide our students with a holistic life experience, by integrating carefully planned facilities and activities into the daily campus routine, we ensure our students become responsible human beings and prepare them to face the challenges of life. Organized, well-structured youth sports and on-going physical activities can provide many benefits for children and adolescents. Positive experiences that sport and an active lifestyle bring play an important role in a young person's life.

The Institute provides undergraduate and graduate programmes in a range of fields, including language, science, technology, business, management, fashion design, marketing, accounting, e-commerce, etc. With its cutting-edge academic, technological, and physical infrastructure, AIGS offers its students a top-notch learning environment. As the top graduate

PRINCIPAL

Acharya Institute of Graduate Studies

Bengaluru - 560107

school in Bangalore, the faculty members provide students with practical knowledge through project work, seminars, workshops, industrial visits, and other hands-on learning activities. They also have professional experience in a variety of fields. The Sanskrit word "Acharya" which means "an influential mentor". Epitomizes the quintessential values of our institution, where traditional respect for teachers is of paramount importance. Acharya Institute of Graduate Studies (AIGS) was founded in 2005, as is counted among the top graduate colleges in Bangalore.

The World Ethnic Day is celebrated on June 19 of every year in AIGS. The day is intended to honour various ethnic and cultural groups. The day promotes the true essence of ancient customs and traditions that have helped shape the various civilisations throughout the world and helps people rediscover their traditional and cultural roots. It's a multi-religious, multilingual and multicultural country, Acharya Institute of Graduate Studies in association of Acharya Habba 2018 celebrated Ethnic day in the campus at Soladevanahalli.

On 19-03-18 at 10:15 AM, students were given an opportunity to celebrate the diversity of vibrant and colorful people of the whole world. Students turn out in costumes of various regions and traditions wowing everybody. They are given a chance to indulge in the innate desire of every young girl and boy to dress up, look good and feel great. The faculty and students from different cultures, regions and languages joined hands to celebrate and showcase their respective regional cultures and traditions to everyone present on campus. Ethnic Day is celebrated so that everyone feels close to their culture.

A fantastic event celebrated with lots of josh. The students not only donned ethnic attire but also showcased various traditional performances. This was followed by ethnic dances - solo and group performances, songs and fashion shows. Some of them who showcased their traditional dance performance are Kumuda, Rajath, Athulya, Athira and Bharath .The event also saw the participation of many international students studying in the college and also the regional games like Kunte Bille, buguri, goli and so on were included in the festive celebration. The energy levels were quite high as the campus was bursting with enthusiasm and passion.

The Acharya Institute of Graduate Studies (AIGS) was established in 2005 by Premnath Reddy, Chairman of the Acharya Group of Institutions. The college is managed by the JMJ Education Society, Headquartered in Bengaluru.

At Acharya, our educational philosophy is broader than simply academics. Being one of the best colleges in Bangalore, our mission is to provide our students with a holistic life experience, by integrating carefully planned facilities and activities into the daily campus routine, we ensure our students become responsible human beings and prepare them to face the challenges of life.

Acharya Institutes, committed to the cause of value-based education in all disciplines, envisions itself as the fountainhead of innovative human enterprise, with inspiring initiatives for academic excellence. AIGS is endowed with modern physical, technological, and academic infrastructure and provides world class learning ambience to its students. The word "Acharya" in Sanskrit signifies "a powerful guru." exemplifies our institution's core principles, which place a high priority on treating professors with respect.

India's fashion heritage is rich in tradition, vibrant in colours and prepossessing. Ancient Indian fashion garments generally used no stitching although Indians knew about sewing. Most clothes were ready to wear as soon as they left the loom. The traditional Indian Dhoti, the scarf or uttariya, and the popular Turban are still visible in India and continue to be part of Indian fashion. Likewise, for women, the dhoti, or the sari as the lower garments, combined with a stanapatta forms the basic ensemble, and once again consists of garments that do not have to be stitched, the stanapatta being simply fastened in a knot at the back.

Fashion design has been around for many years. Throughout those years apparel style has changed a lot. Different designers and new designers have entered this industry to create amazing pieces. The industry has gained designers in an early age to male designers to female designers making the industry very broad. There are designers from all over the world bringing their culture into the garments they have designed. Fashion design overall brings all cultures from around the world into apparel. Fashion design is not only clothes, it expresses a story or an event in time. Garments are not only made out of fabric but are also made out of paper, cardboard, bottles and even napkins. Fashion design is culture and a message to us. The amazing individuals who create such inspiring pieces are fashion designers. They are what we wear in today's day in what we will wear tomorrow's day. Fashion designers are those who set fashion trends to be worn and set what "fashion" should not be worn. It is because of fashion designers that each individual now has a unique sense of style.

Department of Fashion and Apparel Design organised one of the most awaited events of Acharya campus, Vastra 2017-18 Academic Fashion show on 13 March 2018. A group of 4 students from sixth semester, B.Sc FAD participated in the event as designers. Each designer showcased their collections. Each collection comprised 4 wearables and 1 non wearable ensemble. Every designer had chosen a theme on which the collections were designed and developed. The ensembles were presented on the ramp by the models.

The event was judged by Ms Neha Salam, Retail consultant for many online and offline brands and Mr. Mandira Kusha Pooviah, Freelance designer, Lecturer at Mount Carmel College, Bengaluru. At the end of the event, certificates and prizes were distributed for the winners. Mr Shabeeb Rahman was awarded as the Best Designer, Mr Prabhu Kumar Raavi was awarded for the Best Colour Palette, Ms Kavya P was awarded for the Best Choreography, Ms Dulsha Nishanki was awarded for Best Theme and Mr. Athul P Sudhi was awarded for the Best presentation on stage. The event started at 10 AM and lasted till 4:30 pm. Staff and students from the entire Acharya campus attended the fashion show and encouraged the students of Fashion and Apparel Design. The show ended successfully.

Fashion is a form of self-expression and autonomy at a particular period and place and in a specific context, of clothing, footwear, lifestyle, accessories, makeup, hairstyle, and body posture. The term implies a look defined by the fashion industry as that which is trending. Everything that is considered fashion is available and popularized by the fashion system (industry and media). Fashion is defined in a number of different ways, and its application can be sometimes unclear. Though the term fashion connotes difference, as in "the new fashions of the season", it can also connote sameness, for example in reference to "the fashions of the 1960s", implying a general uniformity.

Fashion can signify the latest trends, but may often reference fashions of a previous era, leading to the reappearance of fashions from a different time period. While what is fashionable can be defined by a relatively insular, esteemed and often rich aesthetic elite who make a look exclusive, such as fashion houses and haute couturiers, this 'look' is often designed by pulling references from subcultures and social groups who are not considered elite, and are thus excluded from making the distinction of what is fashion themselves.

The pace of change accelerated considerably in the following century, and women's and men's fashion, especially in the dressing and adorning of the hair, became equally complex. Art historians are, therefore, able to use fashion with confidence and precision to date images, often to within five years, particularly in the case of images from the 15th century. Although the fashion industry developed first in Europe and America, as of 2017, it is an international and highly globalized industry, with clothing often designed in one country, manufactured in another, and sold worldwide. For example, an American fashion company might source fabric in China and have the clothes manufactured in Vietnam, finished in Italy, and shipped to a warehouse in the United States for distribution to retail outlets internationally.

The levels of focus in the fashion industry consist of many separate but interdependent sectors. These sectors include textile design and production, fashion design and manufacturing, fashion retailing, marketing and merchandising, fashion shows, and media and marketing. Each sector is devoted to the goal of satisfying consumer demand for apparel under conditions that enable participants in the industry to operate at a profit. Today's consumer tends to be more mindful about consumption, looking for just enough and better, more durable options. People have also become more conscious of the impact their everyday consumption exerts upon the

environment and on society, and these initiatives are often described as a move towards sustainable fashion, yet some argue that a circular economy based on growth is an oxymoron, or an increasing spiral of consumption, rather than a utopian cradle-to-cradle circular solution.

In today's linear economic system, manufacturers extract resources from the earth to make products that will soon be discarded in landfills, on the other hand, under the circular model, the production of goods operates like systems in nature, where the waste and demise of a substance becomes the food and source of growth for something new.

### Collage Making Competition: "Technology and Trends"

The Acharya Institute of Graduate Studies (AIGS) was established in 2005 by Premnath Reddy, Chairman of the Acharya Group of Institutions. The college is managed by the JMJ Education Society, Headquartered in Bengaluru. At Acharya, our educational philosophy is broader than simply academics. Being one of the best colleges in Bangalore, our mission is to provide our students with a holistic life experience, by integrating carefully planned facilities and activities into the daily campus routine, we ensure our students become responsible human beings and prepare them to face the challenges of life.

Acharya Institutes, committed to the cause of value-based education in all disciplines, envisions itself as the fountainhead of innovative human enterprise, with inspiration initiatives for academic excellence. AIGS is endowed with modern physical, technological, and academic infrastructure and provides world class learning ambience to its students. The word "Acharya" in Sanskrit signifies "powerful guru", which places a high priority on treating professors with respect.

College making is a very interesting branch of art in which the poster is made by pasting the discarded pieces of papers/magazines with the help of gum on paper. College-making helps you grow your art. You can do it in a very limited time, and it helps to develop your sense of composition. The word 'collage' comes from the French verb 'collar,' which means 'to glue.' In collage, you take scraps of 'something' and glue them on a substrate. The objective of the event is to draw out the massive creativity of the students. A Collage Making Competition on the theme Technology has evolved at a lightning pace over the last few decades. The fun thing about making collages is that you split the art-making process in two. You divide the free and unrestrained expression of abstract painting from the more conscious process of creating a beautiful composition. Advancements in this area and the potential for the future appear to be endless. Technology and trends' is a broad topic, and so the scope of research is infinite. Technology comes in the form of tangible and intangible properties by exerting physical and mental force to achieve something that adds value. For example, a mobile phone is tangible, and the network connection used by the phone is intangible. Technology has taken its place as indispensable, wherein it has resulted in economic benefits, better health care, time-saving, and

*Arindam*  
Principal

Acharya Institute of Graduate Studies  
Soladevanahalli Hesaraghatta Road

better lifestyle. Due to technology, we have a significant amount of knowledge to improve our lives and solve problems. We can get our work done efficiently and effectively. As long as you know how to access technology, it can be used and proves to benefit people of all ages greatly. Technology is constantly being modified and upgraded every passing year.

The department of computer applications, AIGS under the technical club Techmindz conducted a collage competition on 26<sup>th</sup> February on the topic "Technology and Trends" from 3.10 P.M. – 4.10P.M. Huge participation was received from the students for the collage making competition. Around 8 teams participated in the competition (Min 2 & Max 4 members in 1 team). They used a variety of material to create the collages and gave a presentation on the relevant theme after making it. The effort of the students was remarkable and the most creative colleges were adjudged the winner. The students made aesthetic collages which showed their immense creativity and imagination. The students thoroughly enjoyed the whole session. They took keen interest in collage making 30 students participating in this activity which were portrayed pertaining to technology were appreciated by the principal, vice principal, jury members and other students. The Department is thankful to the Management and the Principal of AIGS for this break to conduct useful programs for their students.

Through this program the student community is educated with the currently going on Technology and Trends.

DEPARTMENT OF FASHION APPAREL DESIGN

Inter-college Fashion Show Competition

K.L.E. College had conducted inter-college Fest "Prathibimba" on 24 of February 2018. Students of AIGS had participated in the Fashion Show for "Life after death" theme. Students from II and IV semester of Fashion and Apparel Design were the designers who had participated in fashion show. The team won first prize in competition. The designs were unique and presented well. Judges and audiences appreciated the efforts of the students.

A fashion show is an event put on by a fashion designer to showcase their upcoming line of clothing and/or accessories during a fashion week. Fashion shows debut every season, particularly the Spring/Summer and Fall/Winter seasons. This is where the latest fashion trends are made. The four major fashion weeks in the world, collectively known as the "Big 4", are those in Paris, London, Milan, and New York, Berlin fashion week is also of global importance.

In a typical fashion show, models walk the catwalk dressed in the clothing created by the designer. Clothing is illuminated on the catwalk using various forms of lighting and special effects. The order in which each model walks out, wearing a specific outfit, is usually planned in accordance with the statement that the designer wants to make about their collection. It is then up to the audience to not only try to understand what the designer is trying to say, but to also visually deconstruct each outfit and try to appreciate the detail and craftsmanship of every single piece.

Occasionally, fashion shows take the form of installations, where the models are static, standing or sitting in a constructed environment. A wide range of contemporary designers produce their

*Anidep*  
Principal  
Acharya Institute of Graduate Studies  
Soladevanahalli Hesaraghatta R.  
Bengaluru - 560107.

shows as theatrical productions with elaborate sets and added elements such as live music or a variety of technological components like holograms, for example.

Some designers have attempted to modernize the style and presentation of fashion shows by integrating technological advances in experimental ways, such as including pre-recorded digital videos as backdrops. During New York Fashion Week in 2014, designer Ralph Lauren presented his new Polo line for Spring 2015 in a water-screen projection in Manhattan's Central Park. Technological progress has also allowed a broader portion of the fashion industry's followers to experience shows. In 2010, London Fashion Week was the first fashion week to allow viewing of its shows through live streaming. Live streaming of runway shows and mediated shows has now become commonplace. Tom Ford created a music video with Lady Gaga for his Spring/Summer 2016 women's collection.

Fashion shows are important as they showcase the new styles of the season. They are a walking art show and also guide the looks for the fast fashion stores who knock off the high fashion looks. "If fashion shows sometimes have a reputation for being shocking, that's because of one of their other main purposes: publicity." Fashion shows are a way of life to many people as well and set the tone for each year. People who come and watch the shows also get to experience an art form with their own eyes and be present in the industry. Fashion shows have changed through the digital area and the pandemic accelerated the course of becoming digital.

A runway may be as basic as a narrow space between rows of chairs or more elaborate setups with multiple catwalks. Most runway shows are held inside, for shelter against the weather, but there are times when runway shows are held outdoors. In the 2016 Paris Fashion Week, Chanel presented an elaborate setup by designing the hall as if it were an airport. The viewing guests sat as if they were awaiting their flights while the models walked around the airport approaching ticket counters.

Welcome Speech was given by HOD. Dr. Usha Shrivastava and Vote of Thanks was given by Lecturer Mr. Pramod Nag.

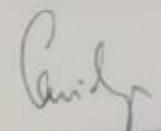

A significant proportion of children in India are engaged in child labour. In 2011, the national census of India found that the total number of child labourers, aged [5-14], to be at 10.12 million, out of the total of 259.64 million children in that age group. As per the Child and Adolescent Labour (Prohibition and Regulation) Act, 1986, amended in 2016 ("CLPR Act"), a "Child" is defined as any person below the age of 14, and the CLPR Act prohibits employment of a Child in any employment including as a domestic help. It is a cognizable criminal offence to employ a Child for any work. Children between age of 14 and 18 are defined as "Adolescent" and the law allows Adolescent to be employed except in the listed hazardous occupation and processes which include mining, inflammable substance and explosives related work and any other hazardous process as per the Factories Act, 1948.

Some child rights activists argue that child labour must include every child who is not in school because he or she is a hidden child worker. UNICEF, however, points out that India faces major shortages of schools, classrooms and teachers particularly in rural areas where 90 percent of child labour problem is observed. About 1 in 5 primary schools have just one teacher to teach students across all grades.

India formulated a National Policy on Child Labour in 1987. This Policy seeks to adopt a gradual & sequential approach with a focus on rehabilitation of children working in hazardous occupations. It envisioned strict enforcement of Indian laws on child labour combined with development programs to address the root causes of child labour such as poverty. In 1988, this led to the National Child Labour Project (NCLP) initiative. This legal and development initiative continues, with a current central government funding of Rs. 6 billion, targeted solely to eliminate child labour in India. Despite these efforts, child labour remains a major challenge for India. No child below the age of 16 years shall be employed to work in any factory or mine or engaged in any hazardous employment.

## DEPARTMENT OF FASHION AND APPAREL DESIGN

### Model Hunt

The Department of Fashion and Apparel Design conducted a "Model Hunt" on 21 February 2018 in AIGS auditorium for an academic fashion show for VI semester students. The academic fashion show will be held on 13 March 2018. Purpose of the event was to make the students aware of selecting the models according to the theme, inspiration/concept, age, type of collections, occasion. Students will be learning how to coordinate and schedule a fashion show through such small activities.

Students prepared posters and displayed those in various departments and in other blocks in Acharya campus. This helped them to gain knowledge about how to advertise for an event and how to prepare themselves prior. Students have also started to give basic information to their models regarding how to prepare themselves for the show. This model hunt was a success since more than 80 students throughout Acharya Institutes actively participated and also encouraged the students of Fashion and Apparel Designs.

Fashion is a form of self-expression and autonomy at a particular period and place and in a specific context, of clothing, footwear, lifestyle, accessories, makeup, hairstyle, and body posture. The term implies a look defined by the fashion industry as that which is *trending*. Everything that is considered *fashion* is available and popularized by the fashion system (industry and media). Given the rise in mass production of commodities and clothing at lower prices and global reach, sustainability has become an urgent issue among politicians, brands, and consumers.

Fashion is defined in a number of different ways, and its application can be sometimes unclear. Though the term fashion connotes difference, as in "the new fashions of the season", it can also connote sameness, for example in reference to "the fashions of the 1960s", implying a general uniformity. Fashion can signify the latest trends, but may often reference fashions of a previous era, leading to the reappearance of fashions from a different time period. While what is fashionable can be defined by a relatively insular, esteemed and often rich aesthetic elite who make a look exclusive, such as fashion houses and haute couturiers, this 'look' is often designed by pulling references from subcultures and social

*Sanidya*  
Principal

Acharya Institute of Graduate Studies  
Soladevanahalli Hesaraghatta Road

groups who are not considered elite, and are thus excluded from making the distinction of what is fashion themselves.

Whereas a trend often connotes a peculiar aesthetic expression, often lasting shorter than a season and being identifiable by visual extremes, fashion is a distinctive and industry-supported expression traditionally tied to the fashion season and collections. Style is an expression that lasts over many seasons and is often connected to cultural movements and social markers, symbols, class, and culture. Fashion is unique, self-fulfilling and may be a key part of someone's identity. Similarly to art, the aims of a person's choices in fashion are not necessarily to be liked by everyone, but instead to be an expression of personal taste. Modern Westerners have a vast number of choices in the selection of their clothes. What a person chooses to wear can reflect their personality or interests. When people who have high cultural status start to wear new or different styles, they may inspire a new fashion trend. People who like or respect these people are influenced by their style and begin wearing similarly styled clothes. Fashions may vary considerably within a society according to age, social class, generation, occupation, and geography, and may also vary over time. The terms fashionista and fashion victim refer to someone who slavishly follows current fashions.

### SANKRANTHI FESTIVAL 2018

The festival of harvest, Sankranti was celebrated at AIGS on 09-02-18 at 10:15 AM. The students initiated all the activities for the celebration which was supported by the Management of Acharya Institutes, Principal, Teaching & Non-teaching staff of AIGS. The whole college was decorated beautifully by students using flowers, color papers and other decorations. The celebrations started with inauguration by the chief guests at the colorfully decorated open auditorium inside AIGS. The chief guests, Mrs. Shalini Reddy (Executive Director, Acharya Institutes), Mr. C B M Bhooshan (E. S. to Chairman), Mr. Nagi Reddy (Director, Human Resource), Prof. Diwakar Gooli (Campus Director, Acharya Institutes) and Dr. Gurunath Rao Vaidya (Principal, AIGS) graced the occasion and were kind enough to address the students. The chief guests initiated the program by a pooja that held significance and which was essential for the celebration of Suggi.

The initial pooja ceremony set the tone for the beautiful event that was to unfold. After inauguration, the procession including professional folk troop led the students and others from AIGS to beautiful music and drum beats. This actually made the students extremely happy and they celebrated along with the procession through dance. There were a number of cultural programmes organized by NCC, NSS and cultural committee students and it entertained the whole crowd. The following are the names of students who performed at the celebrations: Sneha, Charitra, Manish, and Sagar representing AIGS.

Makar(a) Sankranti (Sanskrit: मकरसङ्क्रान्ति, romanized: *Makarasankrāntī*), also referred to as Uttarayana, Maghi, or simply Sankranti, is a Hindu observance and a festival. Usually falling on the date of January 14 annually, this occasion marks the transition of the Sun from the zodiac of Sagittarius (*dhanu*) to Capricorn (*makara*). Since the Sun is regarded to have moved from the southern hemisphere to the northern hemisphere on this day in the Hindu calendar, the festival is dedicated to the solar deity, Surya, and is observed to mark a new beginning. Many native multi-day festivals are organised on this occasion all over India.

The festivities associated with Makar Sankranti are known by various names *Magh Bihu* in Assam, *Maghi* in Punjab, *Maghi Saaji* in Himachal Pradesh, *Maghi Sangrand* or *Uttarain* (Uttarayana) in Jammu, *Sakrat* in Haryana, *Sakraat* in Rajasthan, *Sukarat* in central India, *Pongal* in Tamil Nadu, *Uttarayana* in Gujarat, and Uttar Pradesh, *Ghughuti* in Uttarakhand, *Dahi Chura* in Bihar, *Makar Sankranti* in Odisha, Karnataka, Maharashtra, Goa, West Bengal (also called *Poush Sankranti* or *Makar Sonkranti*), Uttar Pradesh (also called *Khichdi Sankranti*), Uttarakhand (also called *Uttarayani*) or as simply, *Sankranti* in Andhra Pradesh and Telangana, *Maghe Sankranti* (Nepal), *Songkran* (Thailand), *Thingyan* (Myanmar), *Mohan Songkran* (Cambodia), *Til Sakraait* in Mithila, *Maghe Sankranti Nepal*, and *Shishur Senkrath* (Kashmir). On Makar Sankranti, the Sun god is worshiped along with Vishnu and goddess Lakshmi throughout India.

Makar Sankranti is observed with social festivities such as colorful decorations, rural children going house to house, singing and asking for treats in some areas, *melas* (fairs), dances, kite flying, bonfires and feasts. The *Magha Mela*, according to Indologist Diana L. Eck, is mentioned in the Hindu epic *Mahabharata*. Many observers go to sacred rivers or lakes and bathe in a ceremony of thanks to the sun. Every twelve years, the Hindus observe *Makar Sankranti* with Kumbha Mela – one of the world's largest mass pilgrimages, with an estimated 60 to 100 million people attending the event. At this event, they say a prayer to the sun and bathe at the Prayagraj confluence of the River Ganga and River Yamuna, a tradition attributed to Adi Shankaracharya. With the end of the procession, cultural activities started at the grand stage put up in front of AIGS. Entertaining cultural performances were given by the students of AIGS and professional folk troops. The enthusiasm was not exhibited by not only the students but also by the faculty members as they gave memorable performances. The event ended in great colors and success soaring high.

*Arindya*

Meaning of S in the name **Suggi** means: You enjoy open-mindedness. Talent is great, but do not overrate. Pursue greatest talent and luck is at your side. Gifted, you bring gaiety into the lives of others. Enchanting personality, help others toward prosperity as well as yourself. Fearlessness and versatility bring spectacular careers, providing for old age. Do not dream about unrealistic goals, be practical and carve out a career. Great vision, do not overlook what is already attained. Originality, do not scatter energy or talent unwisely. Articulate, disorganized and mean, seek advice in all transactions. For you, it is business before pleasure. If you are in any way bothered by career, business, or money concerns, you find it very hard to relax and get into the mood. You can be romantically idealistic to a fault and are capable of much sensuality. But you never lose control of your emotions. You are very careful and cautious before you give your heart away-and your body, for that matter. Once you make the commitment, though, you stick like glue.

#### Republic Day 2018

India marks January 26 as its Republic Day every year. While India gained independence from the British Raj in 1947, it wasn't until January 26, 1950, that the Indian Constitution came into effect, and India became a sovereign state, declaring it a republic.

The volunteers of the National Service Scheme and the cadets of the National Cadet Corps of Acharya Institute of Graduate Studies organised the 69th Republic Day celebration on 26-01-2018 at 08:15 AM. The distinguished chief guest for the occasion was Shri. B. M. Reddy, the president of JMJ Educational Society. The ceremony commenced with the unfurling of the national flag by the chief guest, followed by a salutation and the National Anthem. Faculty members, students, and nonteaching staff and students gathered on the open ground to witness the event.

In his speech, the chief guest expressed his gratitude towards our soldiers and freedom fighters for giving us a peaceful social life by protecting our nation selflessly. He emphasised the importance of quality education for the development of the city and the country at large. He briefly discussed the issues that the nation is currently facing and urged everyone to unite and stand against them. Other dignitaries expressed their views on the importance of Republic Day.

Mr. Dhendrup Tshering, a second year B. A student moderated the event. He reminded the audience about the importance of Republic Day. He added that celebrating Republic Day should be treasured because it is only after many struggles that Indians have this opportunity. The patriotic aura of the day was well maintained throughout the performances given by students. Students performed inspirational and motivational national songs, which added to the patriotic zeal of the day. A group dance and a pantomime on the theme of Republic Day were performed. All the performances tried to pay tribute to the national leaders and constitution-makers.

  
PRINCIPAL

Bengaluru - 560107

A drama that highlighted the Kashmir crisis was enacted and received appreciation. The drama portrayed a sensitive issue in a thoughtful manner, which enabled the students to understand the relevance and seriousness of the issue.

While remembering and paying homage to the heroes who fought to achieve our freedom, the students also spoke about the importance of this day and the birth of India as a republic state. They shared interesting facts about the history and significance of the event, which was celebrated with great fervour and enthusiasm all across the country. The event inspired the students to be more responsible towards their country and to abide by the constitution of their homeland. Everyone was imbued with the spirit of patriotism and celebrated Republic Day with great enthusiasm.

There were a number of cultural programmes organized by NCC, NSS and cultural committee students and it entertained the whole crowd. The following are the names of students who performed at the celebrations: Allen Karketta and Sumit Anand representing AIGS.

After the cultural programs, the drill and parade session was conducted by the NCC cadets. The parade captured the spirit of Republic Day, and everybody was reminded of the greatness of India. Following the parade, the rank of recognition was given to some NCC cadets. A few cadets were promoted to higher ranks based on their personal skills, qualities, and leadership abilities. The chief guest interacted with the NCC cadets, who are going to graduate by the end of the academic year. It was a proud day for the institution as three cadets from AIGS, AIT, and Polytechnic were selected to march in the Republic Day parade in Delhi.

The success of the programme was owed to the collaborative hard work put forth by the students and staff. Everything, from the stage decoration to the anchoring and the performances, was well planned and systematically executed, leading to the event being a wonderful success.

DEPARTMENT OF FASHION & APPAREL DESIGN

FEVICRYL WORKSHOP

The Acharya Institute of Graduate Studies (AIGS) was established in 2005 by Premnath Reddy, Chairman of the Acharya Group of Institutions. The college is managed by the JMJ Education Society, Headquartered in Bengaluru.

At Acharya, our educational philosophy is broader than simply academics. Being one of the best colleges in Bangalore, our mission is to provide our students with a holistic life experience, by integrating carefully planned facilities and activities into the daily campus routine, we ensure our students become responsible human beings and prepare them to face the challenges of life.

Acharya Institutes, committed to the cause of value-based education in all disciplines, envisions itself as the fountainhead of innovative human enterprise, with inspiring initiatives for academic excellence. AIGS is endowed with modern physical, technological, and academic infrastructure and provides world class learning ambience to its students. The word "Acharya" in Sanskrit signifies "a powerful guru." exemplifies our institution's core principles, which place a high priority on treating professors with respect.

The department of Fashion and Apparel Design had invited Fevicryl certified Art & Craft professionals to conduct "Fevicryl Workshop on Jali Work, Tanjore Painting and Meenakari Jhumkas". The invited guests were Mr. Harsha Narayana, Ms. Geetha Shantharam and Ms. Archana. The workshop was conducted on 19, 20 & 22 of January 2018 for 3 days in LH 003. The students of B.Sc FAD course from II semester, IV semester and VI semester attended the workshop. The main objective of the event was to - enhance the skills and experience of the pupil in the field of designing, in which it was triumphant. The students were able to enhance and explore their creativity using various medium which was accompanied by necessary guidance and instruction.

*Gandya*  
Principal  
Acharya Institute of Graduate Studies  
Soladevanahalli Hesaraghatta Road  
Bengaluru - 560107.

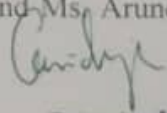

On the first day of the workshop, the concepts of Meenakari work on Jhumkas were introduced to the students. Meenakari jewellery was an indigenous style of jewellery that originated in Persia and was later brought to India by Mughal invaders. Raja Man Singh of Mewar decided to wear it for his portraits and Darbar ceremonies, which is when it first gained popularity in India

The experts demonstrated the techniques and gave detailed explanations to the students. The experts made the students work by following the instructions given by them. Every student made individual products for themselves.

Similarly on the second day the concepts of developing Tanjore paintings were introduced to the students. The Tanjore painting is a classical South Indian painting style, which was inaugurated from the town of Thanjavur (Tanjore). The paintings are distinguished by its famous gold coating. Tanjore paintings are traditional Tamil artworks that date back to 1600 C.E. Nayaks of Thanjavur, Tamil Nadu of the bygone era were the chief patrons of this art. Tanjore paintings have a rich gold work with semi precious / precious stones, vibrant colors, and a devotional composition. During the workshop the students were taught to give a similar effect using much affordable materials.

And on the third day of the workshop, the students learnt the concepts of designing Jali work on fabric using liquid embroidery techniques. Jaali work is a technique that is somewhat similar to threadwork and involves making holes in the fabric. However, the method of doing so is different from the tradition of punching holes into the cloth. Jaali work involves pulling the warp and weft threads apart with a needle without breaking the continuity of the fabric. It did not emerge as a form of embroidery on its own. This is a technique that is used in chikankari work, which is a specialty of Uttar Pradesh, India. A jaali on fabric is also known as a trellis. Students showed their complete involvement in the sessions conducted on all the three days during the workshop. At last, the workshop ended up with so much colourful and creative works where our enthusiastic buds engaged students to enhance their skills. The duration for each session was scheduled for three hours per day. The workshop was well organized and the program well-balanced. The classes were beneficial and provided a good background regarding different materials and mediums used in traditional decoration.

On the successful completion of the workshop, the experts selected two best performers. Mr. Pavan K.G., student of II semester, B.Sc FAD secured the first position and Ms. Arundhati M. Pankaj, student of IV semester, B.Sc FAD secured the second position.

  
Principal

Acharya Institute of Graduate Studies  
Soladevanahalli Hesarahatta Road

All the students gave positive feedback about the workshop and they said they would expect more of such workshops to be conducted in the future. The Fevicryl professionals appreciated the involvement shown by the students. They ended the session by thanking Acharya Institutes for inviting them to conduct the workshop.

### JOURNALISM AND MASS COMMUNICATION

#### 48th edition of International Film Festival of India

The Acharya Institute of Graduate Studies (AIGS) was established in 2005 by Premnath Reddy, Chairman of the Acharya Group of Institutions. The college is managed by the JMJ Education Society, Headquartered in Bengaluru. At Acharya, our educational philosophy is broader than simply academics. Being one of the best colleges in Bangalore, our mission is to provide our students with a holistic life experience, by integrating carefully planned facilities and activities into the daily campus routine, we ensure our students become responsible human beings and prepare them to face the challenges of life.

The Department of Journalism and Mass Communication organized another learning field trip for its students to the International Film Festival of India 2017 – IFFI, which was held in Goa from 20<sup>th</sup> to 30<sup>th</sup> of November. The trip was aimed at providing an experiential learning of Films from across the globe and also to provide a lifetime opportunity to interact with the stalwarts of the Industry. The Students had a great chance to meet the best film directors of the country like Nitesh Tiwari, Aniruddha Roy Chowdhury, Bhaskar Hazarika etc. The opening movie screened was, 'Beyond the clouds' by the legendary Iranian filmmaker Majid Majidi. The two hour Indian work of art was also voted for the Best Film Award at the London film festival 2017. It marked the debut of the young talent Ishaan Khattar and also featured South Indian actress Malavika Mohanan in the lead. The International Film Festival of India (IFFI), founded in 1952, one of the film festivals in Asia. Held annually, currently in the state of Goa, on the western coast of the country, the festival aims at providing a common platform for the cinemas of the world to project the excellence of the film art; contributing to the understanding and appreciation of film cultures of different nations in the context of their social and cultural ethos, and promoting friendship and cooperation among people of the world. The festival is conducted

jointly by the National Film Development Corporation of India (under the Ministry of Information and Broadcasting) and the state Government of Goa

The students had a great opportunity to attend master classes and panel discussions conducted by eminent professionals of the film industry who have mastered the art of filmmaking. Some of the important master classes and discussions attended by the students were 'The power of storytelling: Creating new groups for communities on of offline', which was conducted by panelists Mr. Nishikant Kamat (Filmmaker), Mr. Raja Krishna (Filmmaker), Ms. Anna Louie Sussman (Art market editor) and Mr. Priyank Mathur (CEO of Mytho labs); 'Masterclass with Dangal team', which gave a detailed information on the creation and filming of the movie Dangal and their experiences, the team members present were Mr. Nitesh Tiwari (director, screenwriter), Mr. Piyush Gupta (screenwriter) and Mr. Nikhil Mehrotra (screenwriter) and Master class by Bhumi Pendnekar on Breaking Stereotypes. One of the interesting panel discussion on Young filmmaker's of India: The Emerging Voices and the Narratives moderated by Ms. Ashwiny Iyer Tiwari, Filmmaker and panelist were Mr.RS Prasanna, Mr.Bhaskar Hazarika, Mr.Karthik Subbaraj and Mr.Raja Krishna Menon was the best for students understanding the art of movie making.

The students also had the opportunity to view some great movies such as 'The other side of hope' by Aki Kaurismaki, 'The Strange Ones' by Christopher Radcliff, Lauren Walkstein and 'Angels wear White' by director Vivian Qu. Summer 1993 by Carla Simon, The Party by Sally Potter and few more.

## DEPARTMENT OF PSYCHOLOGY

### PSYCHOLOGY FEST SUR SANGRAM @ SURANA PG CENTER

The Acharya Institute of Graduate Studies (AIGS) was established in 2005 by Premnath Reddy, Chairman of the Acharya Group of Institutions. The college is managed by the JMJ Education Society, Headquartered in Bengaluru.

At Acharya, our educational philosophy is broader than simply academics. Being one of the best colleges in Bangalore, our mission is to provide our students with a holistic life experience, by integrating carefully planned facilities and activities into the daily campus routine, we ensure our students become responsible human beings and prepare them to face the challenges of life.

Acharya Institutes, committed to the cause of value-based education in all disciplines, envisions itself as the fountainhead of innovative human enterprise, with inspiring initiatives for academic excellence. AIGS is endowed with modern physical, technological, and academic infrastructure and provides world class learning ambience to its students. The word "Acharya" in Sanskrit signifies "a powerful guru," exemplifies our institution's core principles, which place a high priority on treating professors with respect.

The PG students of Department of Psychology, AIGS had participated at "SUR- SANGRAM", the fest organized by the PG Department, Surana College on 16<sup>th</sup> & 17<sup>th</sup> November 2017. It was a moment of pride and achievement that our students had won the overall trophy by grabbing first places in almost all the events that happened in the fest. The experience and achievements at the fest was overwhelming.

The participants were: Sonal Singh, Rohini Gore and Shabu from third semester along with Reema Singh, Rinsha Neroth, Sreeshma Thilakan, Pratheeksha K P, John Ezekeil, Kiran Nanda and Suman Grigary Thomas from first semester. The participants who won the prizes were

- First prize in Quiz competition "Best Psychologist" - Reema Singh and Suman Grigary Thomas [First semester].
- First prize in "Skit" - the whole team.
- First prize in "Photography" - Kiran Nanda [First semester].

Principal

- First prize for the event "Sherlock Holmes" - Sonal Singh and Rohini Gore [Third semester].
- First prize in Painting and debate - Sonal Singh [Third semester].

It was a great victory in the history of our Psychology department and great talent exhibited by the PG students which took them to victory at a University level Fest.

Psychology is the scientific study of mind and behavior. Psychology includes the study of conscious and unconscious phenomena, including feelings and thoughts. It is an academic discipline of immense scope, crossing the boundaries between the natural and social sciences. Psychologists seek an understanding of the emergent properties of brains, linking the discipline to neuroscience. As social scientists, psychologists aim to understand the behavior of individuals and groups.

Humanistic psychology is primarily an orientation toward the whole of psychology rather than a distinct area or school. The concept of unconscious processes has remained important in psychology. Cognitive psychologists have used a "filter" model of attention. According to the model, much information processing takes place below the threshold of consciousness, and only certain stimuli, limited by their nature and number, make their way through the filter. Much research has shown that subconscious priming of certain ideas can covertly influence thoughts and behavior.<sup>1</sup> Because of the unreliability of self-reporting, a major hurdle in this type of research involves demonstrating that a subject's conscious mind has not perceived a target stimulus. It stands for respect for the worth of persons, respect for differences of approach, open-mindedness as to acceptable methods, and interest in exploration of new aspects of human behavior. As a "third force" in contemporary psychology, it is concerned with topics having little place in existing theories and systems: e.g., love, creativity, self-growth, organism, basic need-gratification, self-actualization, higher values, being, becoming, spontaneity, play, humor, affection, naturalness, warmth, ego-transcendence, objectivity, autonomy, responsibility, meaning, fair-play, transcendental experience, peak experience, courage, and related concepts. The provision of psychological health services is generally called clinical psychology in the U.S. Sometimes, however, members of the school psychology and counseling psychology professions engage in practices that resemble that of clinical psychologists. Clinical psychologists typically include people who have graduated from doctoral programs in clinical psychology. In Canada, some of the members of the abovementioned groups usually fall within the larger category of professional psychology.

## "HINDI DIVAS"

The Acharya Institute of Graduate Studies (AIGS) was established in 2005 by Premnath Reddy, Chairman of the Acharya Group of Institutions. The college is managed by the JMJ Education Society, Headquartered in Bengaluru. At Acharya, our educational philosophy is broader than simply academics. Being one of the best colleges in Bangalore, our mission is to provide our students with a holistic life experience, by integrating carefully planned facilities and activities into the daily campus routine, we ensure our students become responsible human beings and prepare them to face the challenges of life.

Acharya Institutes, committed to the cause of value-based education in all disciplines, envisions itself as the fountainhead of innovative human enterprise, with inspiring initiatives for academic excellence. AIGS is endowed with modern physical, technological, and academic infrastructure and provides world class learning ambience to its students. The word "Acharya" in Sanskrit signifies "powerful guru", which places a high priority on treating professors with respect.

The objectives of Hindi divas are observed to honor the Constituent Assembly's adoption of Hindi as India's official language, setting this holiday apart from World Hindi Day. Apart from India, the Hindi language is also spoken in several other countries, like Nepal, Guyana, Trinidad and Tobago, Suriname, Fiji, and Mauritius. India is a country of diversity, diverse land, diverse people, diverse culture, and diverse language. Though English is a widely spoken language in India, every state has its language, Maharashtra has Marathi, Gujarat has Gujrati, and Karnataka has Kannada. Hindi Divas is celebrated across the country on 14 September to spread awareness and the importance of the Hindi language. It is celebrated on 14 September across colleges to showcase the importance of the day and the language. The day commemorates the event when Hindi was adopted as one of the official languages of India. Hindi is the most spoken language in India. More than 70% of the people of the country speak and understand Hindi. It is also said that by the efforts of Beohar Rajendra Simha along with some other people including Hazari Prasad

Dwivedi, Hindi was recognised as one of the two official languages. The Constituent Assembly of India had espoused Hindi as India's official language on 14 September, 1949. Hindi written in Devanagari script is one of the two official languages of the Union Government and the other language is English. It is one of the 22 languages of the Republic of India. Hindi is one of those languages that kind of unifies India because almost everyone in the country knows at least two languages. That is to say, the regional language and Hindi, and it is also one of the most spoken languages in the world, and only behind English and Mandarin.

The Department of Hindi celebrated "HINDI DIVAS" on 5<sup>th</sup> October 2017 at AIGS (Room No. - 003) and distributed Prizes to the Winners of various competitions. Head, Dr. Usha Shrivastava delivered the Welcome Speech and mentioned the achievements of the Department. The prizes were given by Chief Guest Mr. Anil B. Malali (Head, Department of Commerce) to the students for various competitions like Story Writing Competition, Essay Writing Competition and Poetry Recitation Competition which were organized by the Department.

Mr. Anil B. Malali spoke in Hindi and expressed his happiness. He congratulated the students and Department for their achievements and mentioned such activity will encourage more students in future. He also said that learning more languages is always useful. Some students spoke on the importance of Hindi & they were very happy about the Dept. of Hindi encouraging them. Students from all courses attended this program and enjoyed it.

Soladevanahalli, Bangalore-560107

### Department of Hindi

#### Poetry Competitions

The Acharya Institute of Graduate Studies (AIGS) was established in 2005 by Premnath Reddy, Chairman of the Acharya Group of Institutions. The college is managed by the JMJ Education Society, Headquartered in Bengaluru.

At Acharya, our educational philosophy is broader than simply academics. Being one of the best colleges in Bangalore, our mission is to provide our students with a holistic life experience, by integrating carefully planned facilities and activities into the daily campus routine, we ensure our students become responsible human beings and prepare them to face the challenges of life.

Acharya Institutes, committed to the cause of value-based education in all disciplines, envisions itself as the fountainhead of innovative human enterprise, with inspiring initiatives for academic excellence. AIGS is endowed with modern physical, technological, and academic infrastructure and provides world class learning ambience to its students. The word "Acharya" in Sanskrit signifies "a powerful guru." exemplifies our institution's core principles, which place a high priority on treating professors with respect.

The Department of Hindi has conducted "Poetry Competition" on 23<sup>rd</sup> August 2017 at 2.00 p.m. to 3.00 p.m. in Room No. 003. Students were very excited to take part in competitions. Students enjoyed listening and some of them recited self composed poems; others recited from famous Hindi poet's composition.

Hindi literature includes literature in the various Hindi languages which have writing systems. Earliest forms of Hindi literature are attested in poetry of Apabhramṣa like Awadhi, Magadhi, Ardhamagadhi and Marwari languages. Hindi literature is composed in three broad styles- (Gadya-prose), (Padya- poetry) and (Campū -Prosimum.) In terms of historical development, it is broadly classified into five prominent forms (genres) based on the date of production.

Rahul Sankrityayan, Bhadant Anand Kausalyayan, Sachchidananda Hirananda Vatsyayan 'Ajneya' and Baba Nagarjun were some of the great Indian writers who dedicated themselves entirely to the Hindi Travel Literature (Yatra Vritanta). Rahul Sankrityayan was one of the greatest travelled scholars of India, spending forty-five years of his life on travels away from his home. He is known as the ("Father of Hindi Travel literature"). Baba Nagarjun was a major Hindi and Maithili poet who has also penned a number of novels, short stories, literary biographies and travelogues, and was known as ("Janakavi- the People's Poet"). Hindi has a rich legacy of poetry. There are several genres of Kavita based on Ras, Chhand and Alankar (e.g., Shringar, Karun, V̄eer, Hāsya, etc.). Hasya Kavita is humorous comic poetry in Hindi. It is particularly famous due to Hindi kavi sammelan. Bal kavita is a children's rhyme in Hindi.

Many attempts have been made to document Hindi poetry. Some of the most comprehensive online collections for Hindi poetry are KavitaKosh and Kavita. The most classy content that has created new audiences who were not looking for Hindi poetry or Hindi content is Hindi Kavita. This movement started in 2014 by Manish Gupta has generated an entirely new market and brought many projects to the fore. Many award-winning poets, scholars, journalists and celebrities from film, television and theatre have come forward to support the cause and take it further.

In this way modern Hindi Khari Boli poetry has also achieved high peaks of achievement in a short time. Kya Prabandha Kavya, Kya Muktak Kavya, both Hindi poetry have beautiful compositions. Hindi has also got many beautiful compositions in the field of geet-poetry. Chhayavadi poetry remained among the intellectuals. This could not become the voice of the people. Social and political movements did not have a direct impact on the poetry of this era. Socialist ideology was spreading rapidly in the world. Public opinion began to form against the exploitation of the proletariat. Its reflection also fell on Hindi poetry and the progressive era of Hindi literature was born. Hindi poetry after 1930 is influenced by such progressive ideology. In 1936, the Progressive Movement inspired by Marxist ideology began in Hindi literature with the formation of the "Pragati Iti Writers' Association". Its most far-reaching impact was on Hindi criticism. Marxist critics reevaluated the entire history of Hindi literature from the point of view of class-struggle. Started trying. Along with the progressive poets Nagarjuna, Kedarnath Agrawal and Trilochan, the poets of new poetry Muktibodh and Shamsher are also kept. The variety of sizes and types always attracts our attention. Appreciable work has also been done in the fields of music, metaphor, song and drama etc. In the external and internal forms of poetry, the new experiments which are being done regularly, they are a sign of the vitality and vigor of Hindi poetry.

The word "Acharya" in Sanskrit signifies "a powerful guru." exemplifies our institution's core principles, which place a high priority on treating professors with respect.

The Department of Fashion and Apparel Design had conducted a departmental exhibition "ART NOUVEAU- 2017". This was organized on 22/08/2017 on Tuesday. The department of Fashion and Apparel Design also inaugurated a fashion club named "RUFFLES " on the same day. The guests for the day were Dr Divakar Goli (Campus director), Prof. Bhanumurthy (Principal, Acharya Polytechnic), Prof. Nagendra Kumar (Principal, Acharya Polytechnic), Dr Gurunath

*Gandhi*  
Principal  
Acharya Institute of Graduate Studies  
Soladevanahalli Hesaraghatta Road  
Bengaluru - 560107.

Rao Vaidya (Principal, AIGS). Dr. Divakar Goli inaugurated the exhibition and the fashion club. He also launched the signature T-shirts of the fashion club.

The guests walked along the various stalls set up by the fashion students. Students had designed and developed a beautiful range of products like apparels, bags, purses, earrings, necklaces, bangles, keychains, wall hangings, and many more products. The guests observed the exhibits with great interest and encouraged and appreciated the students as well. A group of students conducted a workshop on block printing technique, hat making and quilting technique.

A group of students from the same departments had set up snacks stalls. Guests appreciated the efforts made by the students. Students and faculties from various colleges within Acharya campus were invited. All together the exhibition was a huge success.

Modern Westerners have a vast number of choices in the selection of their clothes. What a person chooses to wear can reflect their personality or interests. When people who have high cultural status start to wear new or different styles, they may inspire a new fashion trend. People who like or respect these people are influenced by their style and begin wearing similarly styled clothes. Fashions may vary considerably within a society according to age, social class, generation, occupation, and geography, and may also vary over time. The terms fashionista and fashion victim refer to someone who slavishly follows current fashions. In the Western world, tailoring has since medieval times been controlled by guilds, but with the emergence of industrialism, the power of the guilds was undermined. Before the mid-19th century, most clothing was custom-made. It was handmade for individuals, either as home production or on order from dressmakers and tailors. By the beginning of the 20th century, with the rise of new technologies such as the sewing machine, the rise of global trade, the development of the factory system of production, and the proliferation of retail outlets such as department stores, clothing became increasingly mass-produced in standard sizes and sold at fixed prices.

A fashion trend signifies a specific look or expression that is spread across a population at a specific time and place. A trend is considered a more ephemeral look, not defined by the seasons when collections are released by the fashion industry. A trend can thus emerge from street style, across cultures, and from influencers and other celebrities. Fashion trends are influenced by several factors, including cinema, celebrities, climate, creative explorations,

  
Principal  
Acharya Institute of Graduate Studies  
Soladevanahalli Hesaraghatta Road  
Bengaluru - 560107

innovations, designs, political, economic, social, and technological. Examining these factors is called a PEST analysis. Fashion forecasters can use this information to help determine the growth or decline of a particular trend.

## ACHARYA INSTITUTE OF GRADUATE STUDIES

(NAAC Re-Accredited 'A' Grade and Affiliated to Bangalore University)

Soladevanahalli, Bengaluru-560107

NCC 05/09 COY

Independence Day 2017

Independence Day is celebrated annually on 15 August as a public holiday in India commemorating the nation's independence from the United Kingdom on 15 August 1947, the day when the provisions of the Indian Independence Act, which transferred legislative sovereignty to the Indian Constituent Assembly, came into effect. India retained King George VI as head of state until its transition to a republic, when the Constitution of India came into effect on 26 January 1950 (celebrated as Indian Republic Day) and replaced the dominion prefix, Dominion of India, with the enactment of the sovereign law Constitution of India. India attained independence following the independence movement noted for largely non-violent resistance and civil disobedience. National Cadets Corps 05/09 COY organised Independence Day celebrations in all their dignity and splendour at Acharya Institutes on 15-08-17 at 08:15 AM. Mr. B.M. Reddy (President, Acharya Institutes) was the chief guest for the event. The ceremony was attended by the principals of all the Acharya groups' institutions, as well as faculty, students, and non-teaching personnel. The chief guest was escorted by Lt. Subramanyam B. and Lt. Sowmya M. A. (associate NCC officers), who were piloted by two NCC cadets.

The ceremony commenced with the unfurling of the national flag by the chief guest, followed by a salutation and the National Anthem. He gave an excellent address on the significance of the day, emphasising the importance of living for the country and treating our motherland with respect in order to honour the sacrifices made by our heroes and freedom fighters. He also stressed to the audience the value of integrity and harmony in the face of difference.

The cultural programmes started after the flag-hoisting ceremony. It started off with a splendid and graceful classical dance performance by NCC Cadet Preethi. Following that, Cadet Harshith performed another dance that displayed the spirit of Independence Day. The NCC troop enacted

*Principle*  
PRINCIPAL

Acharya Institute of Graduate Studies  
Soladevanahalli, Hanumanthalli Road  
Bengaluru - 560107

a skit that portrayed the story of Bhagat Singh. Cadet Mohan (fifth semester B.com.) coordinated the skit.

The audience applauded the skit, which gave a genuine portrayal of Bhagat Singh's life. It illustrated the difficulties the legendary freedom warrior encountered in his conflict with colonizers. The cadets did a fantastic job performing the skit. It was excellent and had a poignant undertone that served as a regular reminder to the audience of the courageous freedom fighters' sacrifices. Following the skit performance, a student recited a heart-warming poem on the struggle for freedom and independence.

The main attraction of the day was the pyramid group dance performed by the NCC cadets. The cadets displayed a wonderful and organised performance that entertained the audience. The pyramid group dance was a new experience for many of the audiences. Following the group performance, cadets demonstrated contingent drill, commandos' arrow-shaped fieldcraft, and battlecraft, which enabled the audience to get a glimpse of the everyday struggles experienced by the soldiers.

NCC Coy was wholeheartedly appreciated by the entire gathering and stood as an example of extravagant talent. It set an example for the junior cadets that the NCC is not just for parades but also a platform for exhibiting individual skills. The event ended with an appreciation note given by Prof. Gurunath Rao Vaidya (Principal, Acharya Institute of Graduate Studies). The success of the programme was owed to the collaborative hard work put forth by the students and staff. Everything, from the stage decoration to the anchoring and the performances, was well planned and systematically executed, leading to the event being a wonderful success.
