Detailed Report:

The Department of Criminology & Forensic Science, Acharya Institute of Graduate Studies, organized an Educational Visit to Soladevanahalli Police Station, Bengaluru, on 14 August 2026 from 9:00 AM to 5:00 PM. The programme was conducted with the theme “Practical Exposure to Police Science and Criminal Investigation”, with the objective of providing students with practical exposure to police station functioning and criminal investigation procedures.

During the visit, students had the opportunity to observe and understand the functioning of a police station and interact with police personnel. The Assistant Sub-Inspector (ASI) explained the students about the routine duties and responsibilities of police personnel, the functioning of different divisions within the police station, and the role of police officers in maintaining law and order and responding to public complaints.

The Crime Sub-Inspector, Mr. Reddy, provided valuable insights into crime investigation procedures. He explained the importance of crime mapping in identifying crime-prone areas and analyzing patterns of criminal activity. He also discussed the procedures relating to complaints, FIR registration, investigation, collection of information and evidence, identification of suspects and maintenance of investigation records. The interaction helped students understand how theoretical concepts of criminal investigation are applied in practical police work.

A major highlight of the visit was the interaction with Police Inspector Mr. Raghu, who engaged with the students through an extensive question-and-answer session involving more than 20 questions. The discussion covered various aspects of policing and investigation, including FIR procedures, crime mapping, crime charts, investigation techniques, evidence collection, suspect identification, witness information, police records, technological applications and challenges faced by investigating officers. Inspector Raghu also emphasized the importance of systematic investigation, observation, documentation, evidence-based reasoning and professional responsibility. The students actively participated in the session, asked questions and clarified their doubts regarding practical investigation procedures.

The visit successfully connected classroom learning with real-world policing practices. It enhanced students' understanding of police science, criminology, criminal investigation and the role of forensic science in the Criminal Justice System. The programme proposal identified these practical learning outcomes as key objectives of the visit.

Outcomes:

1. Enhanced Practical Knowledge: Students gained practical understanding of police station functioning, routine police duties, different divisions, complaint handling, FIR procedures and criminal investigation processes.
2. Improved Understanding of Crime Investigation: Students developed better knowledge of crime mapping, crime charts, investigation techniques, evidence collection, suspect identification and systematic documentation through interactions with the ASI, Crime SI Mr. Reddy and Police Inspector Mr. Raghu RR.
3. Bridging Theory and Practice: The visit helped students connect classroom learning in Criminology, Police Science, Criminal Investigation and Forensic Science with real-world policing practices and strengthened their awareness of professional responsibilities within the Criminal Justice System.

Conclusion and Audience Feedback Summary:

During the visit, the Assistant Sub-Inspector (ASI) explained routine police duties, responsibilities and different divisions of the police station. Crime Sub-Inspector Mr. Reddy provided practical insights into crime mapping, complaints, FIR registration, investigation procedures and related police records. Police Inspector Mr. Reghu interacted extensively with the students and conducted an engaging question-and-answer session involving more than 20 questions. He discussed crime charts, investigative techniques, evidence-related procedures, suspect identification and practical challenges in criminal investigation.

The interactions encouraged students to actively participate, clarify their doubts and understand the practical application of concepts studied in the classroom. The programme effectively connected theoretical knowledge of Criminology, Police Science, Criminal Investigation and Forensic Science with real-world policing practices. Total 27 students, 10 given excellent & 17 are given good in feedback sheet.

Overall, the educational visit enhanced students' practical knowledge, investigative awareness and understanding of the role of police within the Criminal Justice System. It successfully fulfilled the intended objective of bridging the gap between theoretical learning and practical field experience.
