

DEPARTMENT OF AVIATION MANAGEMENT

Report Submission: 28/04/2026

Semester:	EVEN	Academic Year:	2025 – 26	Venue:	Govt. Lower-Middle School, Thammenahalli.
------------------	------	-----------------------	-----------	---------------	---

Event Date:	13/03/2026	Time:	09:30 am to 12:30 pm	Duration:	03 Hours
--------------------	------------	--------------	----------------------	------------------	----------

TYPE OF EVENT: ISR ACTIVITY

EVENT NAME: Save Nature – Save Future Campaign

Target Audience:	BBA Aviation IInd Semester	Number of Participants:	26
-------------------------	----------------------------	--------------------------------	----

Objectives:

1. To create awareness among students about the importance of protecting nature.
2. To encourage students to plant and care for trees and plants.
3. To teach students to keep their surroundings clean and reduce pollution.
4. To develop eco-friendly habits like saving water and avoiding plastic.
5. To motivate students to protect nature for a healthy and safe future.

Program Introduction:

Institution Social Responsibility (ISR) is an initiative taken by educational institutions to encourage students to participate in activities that benefit society and contribute to social development. Such programmes help students understand their responsibility toward the community and the environment. ISR activities also help in building social awareness, leadership qualities, and a sense of service among students.

As part of this initiative, an ISR activity was conducted at Government Lower Middle School Thammenahalli. The main aim of the programme was to create awareness among school children about the importance of protecting nature and maintaining a clean and healthy environment.

Nature plays a vital role in human life by providing essential resources such as air, water, food, and shelter. However, due to increasing pollution, deforestation, and improper waste disposal, the natural environment is being damaged. Therefore, it is very important to educate young students about environmental protection and sustainable practices from an early age.

Theme of the Event:

The theme of the programme focused on spreading awareness about the importance of protecting nature and maintaining environmental balance. The theme emphasizes that the future of humanity depends on how well we take care of our natural resources today.

Under this theme, students explained how natural resources like trees, water, soil, and clean air are essential for the survival of all living beings. The programme also highlighted the harmful effects of environmental pollution, deforestation, and excessive use of plastic.

The theme encouraged students to understand that protecting nature is not only the responsibility of the government or environmental organizations but also the responsibility of every individual. By following simple practices such as planting trees, reducing waste, saving water, and avoiding plastic, people can contribute to protecting the environment.

Detailed Report:

The Institution Social Responsibility (ISR) activity was conducted at Government Lower Middle School Thammenahalli with the active participation of 26 students from our institution. The programme aimed to create awareness among school students about environmental protection, personal hygiene, and student well-being.

The programme began with a song, Speech and skit performed by our students to create awareness about important social issues. The skit mainly focused on environmental awareness and the concept of good touch and bad touch, helping school children understand the importance of protecting nature and also creating awareness about personal safety. The performance attracted the attention of the students and effectively conveyed important messages in an engaging and understandable manner.

After the skit, several fun and educational games were organized for the school children. Activities such as coloring competition, environment quiz, musical chair, and water bottle games were conducted to encourage participation and make the programme interactive. The games helped

students learn while enjoying the activities and also promoted teamwork and enthusiasm among them.

To encourage academic performance and regular attendance, students who had scored good marks in their academics and those who had maintained above 80% attendance were identified as per the school records. These students were appreciated and awarded gold and silver medals as a form of motivation and recognition for their hard work and dedication.

In addition, prizes were distributed to the winners of the games and competitions conducted during the programme. This recognition encouraged students to participate actively and boosted their confidence.

As part of promoting personal hygiene and health awareness, from our Aviation department distributed nail cutters to all 85 students of the government school. The objective of this initiative was to encourage students to maintain personal cleanliness and hygiene, which is an important aspect of good health.

The programme also included a tree plantation activity, where students planted saplings in the school premises to promote environmental conservation and encourage the importance of greenery.

Furthermore, stationery items, biscuits, and cake were distributed to the school children as a gesture of encouragement and appreciation for their participation in the programme.

Towards the end of the programme, our students interacted with the school children and created awareness about student well-being and positive thinking, helping them understand the importance of maintaining a healthy mindset and developing good habits.

Overall, the programme was interactive, informative, and beneficial for the school students. It successfully delivered important messages related to environmental protection, personal safety, hygiene, and student motivation, while also creating a joyful and engaging learning experience for the children.

1. The programme created awareness among school students about the importance of environmental protection and cleanliness.
2. Students gained knowledge about personal safety concepts such as good touch and bad touch through the skit performed by our students.
3. The activities and games conducted during the programme helped in improving participation, confidence, and teamwork among the school children.
4. Recognition through medals and prizes motivated students to maintain good academic performance and regular attendance.
5. Distribution of nail cutters encouraged students to maintain personal hygiene and good health habits.
6. The tree plantation activity helped students understand the importance of protecting nature and caring for plants.

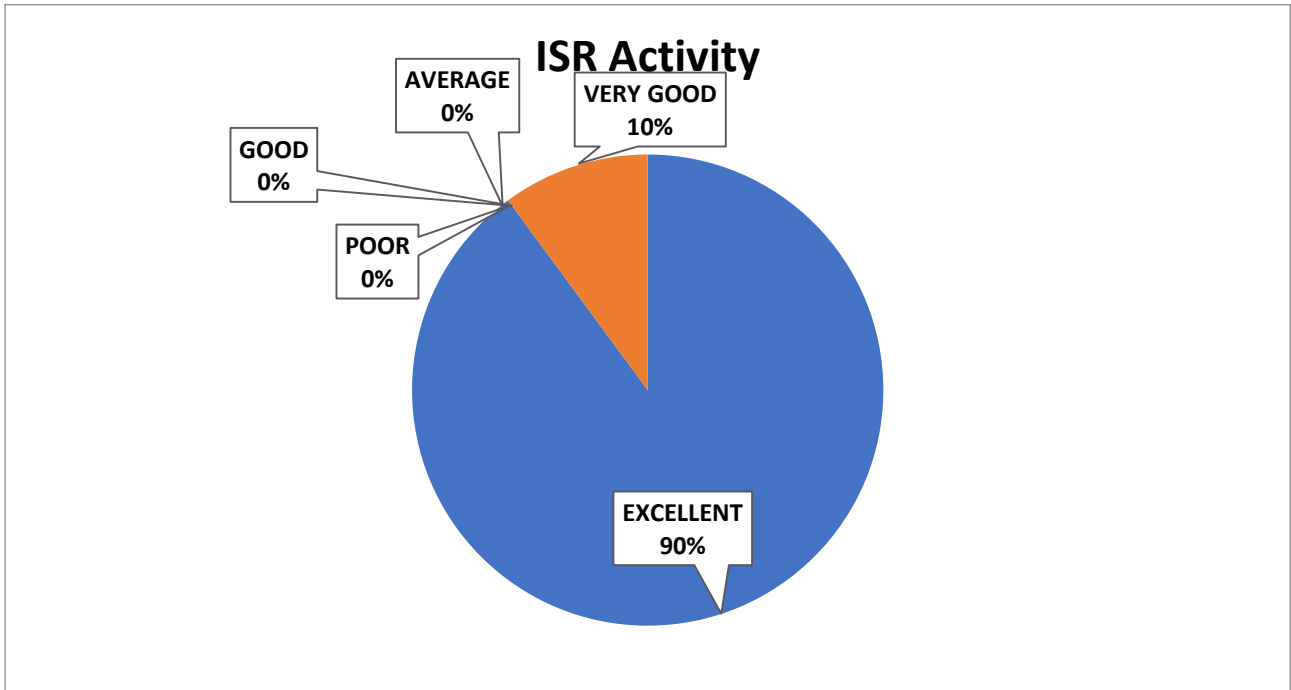

Conclusions:

The ISR activity conducted at Government Lower Middle School Thammenahalli was successfully organized and created a positive impact on the school students. The programme helped in spreading awareness about environmental protection, personal hygiene, and student well-being through skits, speeches, games, and interactive activities.

The event also motivated students through prizes, medals, and distribution of useful items, which encouraged them to maintain good academic performance, regular attendance, and cleanliness. Tree plantation and awareness sessions inspired the children to develop eco-friendly habits and understand their responsibility towards nature.

Overall, the programme was informative, engaging, and meaningful, and it strengthened the connection between our institution and the local community while promoting social responsibility among students.

Student's feedback Summary:

Result: 26 students gave the feedback as Excellent, 3 students gave a feedback as Very good feedback as good Hence it is said that the overall feedback is EXCELLENT.
