## DEPARTMENT OF COMMERCE UG

Report Submission: 24/03/2026

---

**Semester: Even      Academic Year: 2025–26      Venue: Kalbavi, Mangalore**

**Date:13/03/2026      Time: 09:00 AM to 05:00 PM      Duration: 03 Days**

---

### **TYPE OF EVENT: INDUSTRIAL VISIT**

**EVENT NAME: Industrial Visit to Kalbhavi Cashew, Mangalore**

---

**Target Audience: VI B. Com students      Number of Participants: 25 Students**

---

#### **Objective of the event:**

1. To know the manufacturing process of Cashew Nuts.
2. To make students aware with industrial practices .

#### **Introduction:**

Industrial visit is the field study for the commerce students. Students can come to know about the day to day working of the company, it may be in the purchasing of raw materials, manufacturing, advertising, selling and distribution etc. Industrial visit is the platform for the B. Com students to apply theoretical knowledge to real world business scenarios. This visit will enhance knowledge, framing of strategies in the real word scenario after completion of their course.

The primary purpose of these visit is to bridge the gap between academic learning and practical application. They provide an opportunity for students to immerse themselves in real-life business situations, allowing them to understand the intricacies of commercial operations, strategic planning and market dynamics.

## **Theme:**

The goal of industrial visit is to bridge the gap between their theoretical class room learning with industrial working environment. The students should know about the how the industry work on regular basis.

## **Detailed Report:**

On 12<sup>th</sup> March 2026, at 11pm we departure from the college campus, reached to the Sama home stay in Mangalore by 7:30 am in the morning, students got fresh up and after breakfast visited the industry Kalbavi in the morning. Kalbavi Cashew Industry, situated in Mangalore, is a well-known agro-based processing unit that plays an important role in the cashew industry. It focuses on the processing and export of high-quality cashew kernels, contributing significantly to both the local economy and international trade. The industry follows a systematic production process that includes cleaning, roasting, shelling, drying, peeling, grading, and packaging of cashew nuts. Modern machinery and quality control techniques are used to maintain hygiene and ensure superior product standards.

From a B.Com perspective, Kalbavi Cashew Industry provides valuable insights into areas such as supply chain management, cost control, inventory handling, and export documentation. The company sources raw cashew nuts from different regions and manages procurement efficiently to maintain consistent production. It also demonstrates effective labor management, as cashew processing requires both skilled and semi-skilled workers. Furthermore, the industry highlights the importance of marketing strategies and global demand, as cashew kernels are widely exported to various countries. Financial management practices such as budgeting, pricing, and profit analysis can also be observed in its operations. Overall, Kalbavi Cashew Industry serves as an excellent example of how agro-based industries operate, offering practical exposure to business management, production processes, and international trade for commerce students and afternoon visited Udupi Sri Krishna temple followed by this night we reached to Murudeshwara by 7:00 PM followed by dinner at 9 pm. This completes the Day 1.

On day 2 we departed to Honnavra Mangrove Forest and Yana Cave. On the second day of the industrial visit, we had an exciting and refreshing trip to the beautiful backwaters of **Honnavar Backwaters** and the famous **Yana Caves**. In the morning, we visited the

Honnavaara backwaters, where we enjoyed the calm and scenic surroundings, boat ride, and the natural beauty of the place. It was a relaxing experience for all the students after the first day of the visit. Later, we travelled to Yana Caves, which is well known for its unique rock formations and natural caves. The place was surrounded by greenery and hills, making the journey adventurous and memorable. Everyone enjoyed trekking and exploring the caves, and it became one of the most enjoyable moments of the entire industrial visit. This day helped us to refresh our minds and also gave us a chance to experience the beauty of nature.

On the third day of the industrial visit, we travelled to **Dandeli**, which is well known for adventure and water activities. It was one of the most exciting days of the trip. We visited the river side and took part in different water activities such as boating, kayaking, and other fun rides. The cool water, natural surroundings, and adventurous environment made the experience very enjoyable for all the students. Everyone actively participated in the activities and spent quality time with friends, which made the day very memorable. The visit to Dandeli added fun, adventure, and refreshment to our industrial tour, making it one of the best moments of the entire trip.
